

Corporate Governance Report

Introduction

OTP Bank Plc. (hereinafter: OTP Bank, Bank or Company) treats the development and maintenance of an **advanced corporate governance system**, conforming to Hungarian and international standards, as a key priority. A reliable governance system, accurate financial planning, responsible management and the appropriate control mechanisms are what form the basis for efficient and profitable operation.

To this end, the Bank is continuously reviewing and developing its corporate governance practices.

Our corporate governance practice is an important means of ensuring the **fulfilment of our strategic objectives**. Accordingly, within the effective statutory frameworks, we have developed a corporate governance system that simultaneously ensures the confidence and satisfaction of our customers, growth in shareholder value, and our socially responsible corporate conduct. There is no perfect, universally applicable corporate governance solution through which every goal can be achieved as efficiently as possible. For this reason we continuously monitor our governance practices, identifying any deficiencies arising as the result of external and internal changes, and effect those modifications that best serve the fulfilment of our objectives.

The resulting governance structure, optimised to suit our objectives, takes into account the special characteristics of our operations as well as the statutory, supervisory and stock-market requirements that apply to the Bank, while also endeavouring to comply with the related Budapest Stock Exchange (hereinafter: BSE) guidelines. The purpose of the BSE's corporate governance guidelines is for the governance and operating structures of stock exchange-listed companies to be **transparent and comparable** based on a uniform set of criteria. This enables investors, taking into consideration the special characteristics of a given company's operations, the complexity of its activities, and the statutory requirements related to its risk management and financial reporting, to make a well-founded judgement regarding the extent to which the given corporate governance practice ensures reliable and profitable operation.

Like all organisations that provide financial and investment services, the operations of the Bank are, to a high degree, regulated in statutory provisions. As a consequence, not only certain business activities, but our operations as a whole are regulated in detail and monitored by the authorities on a continuous basis. The individual internal control functions (risk management, compliance, and internal audit) have to conform to strict standards, and their effectiveness must be attested not only within the internal corporate governance system, but also to the satisfaction of the external supervisory authorities. All these factors guarantee purposeful, comprehensive and verified risk management procedures, as well as reliable and appropriately supervised data reporting. Therefore, our status as a financial and investment service provider requires us to implement complex and effective corporate governance practices that simultaneously ensure **responsible conduct towards clients and shareholders, reliable operation, and long-term profitability**.

1.) Statement on Corporate Governance Practice

The Bank's operation fully complies with the provisions of the relevant statutory regulations, the decrees of the supervisory authorities and the regulations of the BSE. The structure and operating conditions of the Company are contained in the Articles of Association, which are approved by the General Meeting.

1.1. Management bodies

Board of Directors

The Company's executive body is the Board of Directors. In its objectives and activities, particular emphasis is placed on increasing shareholder value, profitability and efficiency, and on managing risks and complying fully with external requirements – in other words on ensuring the most effective enforcement of business, ethical and internal control policies.

The scope of its authority is defined in the effective statutory provisions, the Company's Articles of Association, General Meeting resolutions, and the Organisational and Operational Regulations. The procedural rules include the legal status and composition, as well as the operating and decision-making rules relevant to the Board of Directors.

The members of the Board of Directors are elected by the General Meeting for a term of five years. All the obligations and prohibitions specified for executive officers under Act CCXXXVII of 2013 on Credit Institutions and Financial Enterprises (Credit Institutions Act) apply to the members of the Board of Directors.

The Board of Directors has an executive role in the governance of the Bank, so it is appropriate and conducive to successful operation if the board members have a personal stake in ensuring the Company's profitable operation. However, the remuneration of the members of the Board of Directors is not tied to whether or not the Company was profitable. Moreover, since the Board of Directors also has an important role in overseeing the work of the management, it is consequential that **the Board of Directors, by principle, has a majority of non-executive members**. The makeup of the Board of Directors ensures that professional expertise, experience, and a degree of impartiality that goes beyond the above-mentioned independence requirement, are brought to bear in equal measure in the decision-making processes.

The employer's rights towards the executive officers of the Company are exercised by the Board of Directors through the Chairman & CEO, with the proviso that the Board of Directors must be notified in advance for the appointment or withdrawal of appointment of deputy CEOs. The Chairman & CEO is empowered to decide in all matters that do not, pursuant to the Articles of Association, fall within the scope of authority of the General Meeting or the Board of Directors.

The members of the Board of Directors are elected by the General Meeting for a term of five years.

Meetings of the **Board of Directors** are convened by the Chairman & CEO by means of a written invitation, in accordance with the prevailing work schedule.

The Chairman & CEO must convene a meeting of the Board of Directors if

- the Board of Directors has passed a resolution calling for an expedited meeting of the Board of Directors;
- At least three Board members initiates a meeting in writing by designating the reason and the purpose, and the items of the agenda, and by submitting a written proposal in respect of the decision to be made;
- The Supervisory Board or the auditor initiates such a meeting in writing;
- The National Bank of Hungary (hereinafter: MNB or Supervisory Authority) requires it;
- Under the law, a decision must be made about whether to convene an extraordinary General Meeting.

The Board of Directors meets at least six times a year.

The Board of Directors passes resolutions in accordance with the rules of procedure, by simple majority; minutes must be taken of its meetings, and its resolutions must be documented.

The table below provides a brief overview of the number of Board of Directors meetings held in 2015, and of the attendance at these meetings:

<i>21 Sept.</i>	9	-
<i>22 Oct.</i>	6	3
<i>16 Nov.</i>	8	1
<i>15 Dec.</i>	9	-

Note:

In 2015 the Board of Directors met on a total of 8 occasions. In addition, resolutions were passed on 105 occasions by written vote.

With effect from 3 October 2012 the board membership of Dr. István Kocsis was suspended, and thus the Board of Directors continued its work with 10 full members until 3 April 2014.

With effect from 3 April 2014 the board membership of Zsolt Hernádi was suspended, and thus the Board of Directors continued its work with 9 full members.

Minutes must be taken of the meetings of the Board of Directors. If decisions are made without convening a meeting, instead of the minutes, a summary must be prepared about the resolutions and attached to the minutes of the next Board meeting that follows the successful written voting.

The items on the agenda of the Board of Directors included, among other things, the tasks stipulated by law, such as making a decision on convening, and specifying the agenda of, the General Meeting, the acceptance of the documents submitted to the annual ordinary General Meeting, preparing a proposal concerning the annual report prepared in accordance with the Accounting Act and the use of the after-tax profit, preparation of the report on the management, on the Company's asset/liability position and on its business policy, measures taken to ensure the appropriate management of the Bank's trading books.

Additional, strategic tasks are, for example, the approval and annual review of the Bank's strategy, determination of its business plan, a review of the Bank's asset/liability position based on the quick reports, review of the Bank's liquidity situation, evaluation of changes in the qualified receivables portfolio, approval and review of the regulations that fall within the Board of Director's scope of authority (collateral evaluation, risk assumption, customer rating, etc.), regular review of compliance with the Credit Institutions Act and Act CXX of 2001 on the Capital Market (hereinafter: Capital Market Act), compliance, and customer complaints management. Furthermore, the Board of Directors is informed of any undertaking of obligations in excess of HUF 3 billion.

In addition, as part of its operative duties, the Board of Directors may make case-by-case decisions in respect of transactions that exceed the threshold value limit.

Supervisory Board

At the Bank, in line with the two-tier governance structure, the Supervisory Board performs the oversight of the Company's management and business activity. For this reason – and in accordance with the legal provisions – the principle of a majority of independent (non-executive) members is fully enforced in respect of the composition of the Supervisory Board.

Supervisory Board members are elected by the General Meeting for a term of three years. The ratio of independent (non-executive) Supervisory Board members (4 persons) to the total number of Supervisory Board members (6 persons) is 67%.

In order to avoid conflicts of interest, the General Meeting may not appoint the members of the Board of Directors and their close relatives to the Supervisory Board. The rules applicable to the appointment and recall of the employee member of the Board of Directors are defined by the Works Council operating at the Company, and the Company does not consider such a member to be independent.

The Supervisory Board establishes its own procedural rules.

The Company's internal audit organisation is governed by the Supervisory Board, in keeping with the provisions specified in the Credit Institutions Act. The Supervisory Board exercises a preliminary right of consent in respect of decisions relating to the establishment and termination of the employment of, and well as the determination of the remuneration of, the managers of the internal audit department.

<i>Date</i>	<i>Present</i>	<i>Absent</i>
<i>17 Feb.</i>	5	1
<i>11 March</i>	4	2
<i>17 March</i>	5	1
<i>21 May</i>	5	1
<i>19 June</i>	4	2
<i>25 Sept.</i>	5	1
<i>20 Nov.</i>	5	1
<i>15 Dec.</i>	6	-

Note:

In 2015 the Supervisory Board met on a total of 8 occasions. In addition, resolutions were passed on 9 occasions by written vote.

The main function of the Supervisory Board is to see to it that the Bank has a comprehensive and effectively operating system of oversight and control. The agendas of the meetings included, among other things, the review of documents to be submitted to the annual ordinary General Meeting, a report on the annual financial statements and on the proposal concerning the use of the after-tax profit, the review of the Bank's annual and interim financial reports, and the proposal to the General Meeting regarding the auditor to be elected as well as his/her remuneration.

The tasks concerning the management of the internal audit unit includes the acceptance of the audit plan at the bank-group level, and the discussion of the report at the bank-group level of the audits performed by the internal audit units and of the performance of the audit tasks at the bank-group level. Additional agenda items include compliance with the provisions of the Credit Institutions Act, the situation in terms of implementation at group level of the Unified Internal Audit System and the further development of the system, a review of the implementation of the resolutions that close the audits performed by the authorities, a review of the volume and composition of the qualified receivables portfolio, changes in impairment and the risk provisioning obligations, report on compliance activity, etc.

Determining the remuneration of the Board of Directors and the Supervisory Committee is in the competence of the Company's supreme body, the General Meeting. The principles and frameworks of the long-term remuneration and incentives system for employees in senior positions are also determined by the General Meeting. Accordingly – on the basis of the provisions on remuneration policy set forth in the Credit Institutions Act, which complies with the relevant EU directives – the Bank's Annual General Meeting of 2011, in its resolution no. 9/2011, approved for the first time the principles and rules of the remuneration policy of the Bank and the Bank Group, and the Board of Directors issued the internal regulations and procedures necessary for their implementation, which documents have been amended several times in recent years by the Bank's General Meeting and Board of Directors, and, due to the statutory amendments made in 2014, by the Supervisory Board. With effect from 2014, the provisions of the Bank Group's Remuneration Policy are approved, implemented and reviewed by the Supervisory Board, while the Board of Directors is responsible for their monitoring. At the Annual General Meetings the Supervisory Board gives a briefing on the annual and medium-term objectives providing the basis for performance-based remuneration, and on their fulfilment.

1.2 Audit Committee

The Audit Committee is a body that assists the work of the Supervisory Board in relation to the monitoring of the financial reporting system, selection of the auditor, and cooperation with the auditor.

The following fall within the competence of the Audit Committee:

- giving an opinion on the financial statements prepared in accordance with the Accounting Act;
- drafting the agreement to be concluded with the auditor, obtaining a written declaration on the person nominated for the post of auditor, which specifies whether there is a conflict-of-interest relationship between the company and the nominee;
- liaising with the auditor, and as a part of this, monitoring compliance with the professional standards and conflict-of-interest rules applicable to the auditor, and where necessary making a recommendation to the Supervisory Board regarding any measures to be taken;
- assisting the work of the Supervisory Board in the interest of ensuring the appropriate monitoring of the financial reporting system, and as a part of this, assessing the operation

of the financial reporting system and making recommendations regarding any measures that need to be taken;

- receiving regular briefings on the work schedule of Internal Audit and of the independent auditor; receiving the auditor's reports on any identified problems;
- issuing a preliminary opinion on the annual report, presented to the Supervisory Board, on the operation of risk management, the internal control mechanisms and the corporate governance functions.

The Audit Committee consists of four members, and its members are elected by the General Meeting from among the **non-executive** members of the Supervisory Board. The Audit Committee elects a chairperson from among its own members.

The Audit Committee meets at least two times a year.

The table below provides a brief overview of the number of Audit Committee meetings held in 2015, and of the attendance at these meetings:

Audit Committee meetings 2015

<i>Date</i>	<i>Present</i>	<i>Absent</i>
<i>17 March</i>	<i>3</i>	<i>1</i>
<i>15 Dec.</i>	<i>4</i>	<i>-</i>

Note:

In 2015 the Audit Committee met on a total of 2 occasions. In addition, resolutions were passed on 5 occasions by written vote.

The items on the agenda of the Audit Committee meetings included, among others, a briefing on the profit approved by the Company's auditor, the Company's non-consolidated financial statements prepared in accordance with International Financial Reporting Standards, the report on the financial statements and on the proposal regarding the distribution of the profit, and a recommendation on the selection of the Company's auditor, approval of the person nominated to be responsible for the audit, and the determining of his/her remuneration.

1.3. The operation of the committees

a) **Permanent committees** established by the Bank's Management in support of management functions:

Management Committee

The Management Committee is a permanent committee established by the Board of Directors. It is a forum that directly supports the work of the Chairman & CEO and is the supreme management body of the Bank. It has decision making power in the issues that are relegated into its scope of authority by the Organisational and Operational Regulations, it takes a preliminary position and prepares decisions in the majority of issues that are discussed by the General Meeting, the Board of Directors and the Supervisory Board, and plays a coordinating role in the senior management of the Bank.

Management Coordination Committee

The primary function of the committee is to act as an operative decision-making forum to ensure that the Bank can respond flexibly and effectively to market and regulatory factors and that the Bank as a whole can act in a coordinated fashion. The committee does not

diminish the competence of the Bank's related standing committees and acts as an operative forum of coordination between the special areas in order to resolve complex questions.

The Management Committee and the Management Coordination Committee perform their work on the basis of a six-month work schedule approved by the Management Committee, and meet once a month (and on an ad-hoc basis as and when necessary). Their order of business is determined by their procedural rules.

The following additional permanent committees operate within the Company for the performance of specific tasks:

- Asset-Liability Committee (ALCO)
- Product Development, Sales and Pricing Committee (TÉÁB)
- International Product Development, Sales and Pricing Committee (NTÉÁB)
- Work-Out Committee (WOB)
- Credit and Limits Committee (HLB)
- Group Investment Committee (CsBB)
- Group Operational Risk Management Committee (OpRisk)

Decisions to establish permanent committees are made by the Bank's Board of Directors. The chairpersons of the committees are nominated by the Chairman & CEO, and their procedural rules – with the exception of the Management Committee – are approved by the Management Coordination Committee. The Management Committee approves its own procedural rules. In respect of resolutions, the Asset-Liability Committee, the Credit and Limits Committee, the Group Operational Risk Management Committee, the International Product Development, Sales and Pricing Committee, and the Work-Out Committee, operate on the principle of simple majority. The Management Committee, the Management Coordination Committee, the Product Development, Sales and Pricing Committee, and the Group Investment Committee, operate on the principle that grants decision-making authority to the chairman.

b) Other committees:

Ethics Committee

A special committee of the Bank that is elected by the Board of Directors and operates under the management of one of the external members of the Board of Directors.

Remuneration Committee

The Remuneration Committee, established by the Board of Directors and meeting on a continuous basis, prepares proposals to the management bodies for elaborating and monitoring the principles and system of remuneration, as well as for specific remuneration decisions.

The Remuneration Committee exercises its authority as a body.

Its chairperson and members are appointed by the Board of Directors, and its procedural rules are also approved by the Board of Directors.

Nomination Committee

This committee, which was established by the Board of Directors in 2014 and operates on a continuous basis, elaborates the principles for selection of the members of the Bank's executive bodies, and nominates candidates accordingly, and also makes recommendations regarding the basic principles and framework for the testing of compliance with the requirements prescribed in respect of members of the executive bodies of the Bank and the Bank Group, and in respect of employees in management and key positions.

Its chairperson and members are appointed by the Board of Directors, and its procedural rules are approved by the committee itself.

Risk Assumption and Risk Management Committee

This committee, which was established by the Board of Directors and operates on a continuous basis, fulfils a decision support function, commenting on the Bank's risk assumption strategy and propensity for risk, and providing support for the supervision of implementation of the risk assumption strategy.

Its chairperson and members are appointed by the Board of Directors, and its procedural rules are approved by the committee itself.

1.4. Members of OTP Bank Plc.'s senior management¹ (with CV):

As of 31 December 2015 he held 571,609 ordinary OTP shares.

1.5. Internal control system

The appropriate functioning of the internal control system is provided for, at bank-group level, in accordance with the relevant statutory regulations and in keeping with the relevant Recommendations.

The internal control system, alongside responsible corporate governance, is a cornerstone of the internal lines of defence that promote prudent, reliable and effective operation in accordance with the statutory regulations and internal regulations, protects the economic interests and social objectives of the customers and the owners and ensures continued trust in the Company.

The internal control functions are independent of each other and of the areas they supervise and audit. A significant aspect of their operation is management support; however, internal control functions are also expected to provide support to the senior management in making sound decisions.

Internal audit

The main function of the internal audit system is to protect customers, the company's assets and shareholder's interests, as well as to facilitate and monitor operation in compliance with the statutory provisions.

The internal audit system extends to all of the company's organisational units, business lines and activities, including outsourced activities. To ensure effective auditing, the internal audit system consists of several modular control levels, and is also segmented in line with the departmental structure of the organisation. The elements of the internal audit system are comprised of in-process and management controls, and an independent internal audit unit and management information system.

OTP Bank Plc. has developed and applies such a uniform internal audit system consistently throughout the Bank Group that is proportionate to the size of the OTP Group and the market share of the Company, includes shareholder audits conducted at the foreign and domestic group members as well as the professional oversight of the internal audit organisations of the financial institutions that are subject to consolidated supervision as specified in the Credit Institutions Act. To this end, standardised internal audit procedures and methodologies pertaining to the operation and activities of group members' internal audit departments are developed, enhanced and applied on a continuous basis. Internal audit also liaises regularly and cooperates with external auditing bodies.

The independent internal audit unit assists in the legally compliant and effective management of assets and liabilities and the protection of property; it supports secure business operation, the effectiveness, cost-efficiency and success of internal control systems, the minimisation of risks, and moreover – alongside the compliance unit – it detects and reports departures from the provisions of the statutory regulations and internal policies, makes recommendations for the elimination of deficiencies, and monitors the implementation of the measures. It performs its activities independently, objectively and professionally. Its independence is ensured by the fact that it is professionally overseen by the Supervisory Board, within the framework set out by the Credit Institutions Act.

The independent internal audit organisation has an annual audit plan which is approved by the Supervisory Board. The annual plan is prepared using a risk-based methodology and, in addition to focusing on the areas that entail regulatory, business and operational risk, and the other main risk exposures, it also takes into account the company's prevailing strategic priorities.

The internal audit organisation makes independent reports on its auditing activities for the management bodies at quarterly and annual intervals. In its quarterly reports it gives a group-level, summary account of the audits conducted in the given quarter, the risks identified in the course of its own audits and audits conducted by the authorities, and the success of any action taken to eliminate them. In exceptional cases that require immediate intervention, it provides the management with extraordinary briefings. The audit organisation reports annually on the performance of the tasks stipulated in the group-level annual audit schedule, the audits conducted and other activities, and on the circumstances of the organisation's operation, as well as on any changes to the internal audit system.

The organisation annually prepares, for the Supervisory Board, objective and independent reports in respect of the operation of risk management, internal control mechanisms and corporate governance functions.

Risk management

The basis for effective group-level risk management is the introduction of a standardised, "OTP-compatible" organisational structure as well as regulations and procedures at the subsidiaries concerned. The Company has detailed risk management rules for each of the various types of risk (liquidity, market, country, counterparty, credit, operational, compliance), and these rules are in harmony with the statutory regulations pertaining to prudential banking operations. The annual report describes the risk management practices, the limits, and compliance with these limits.

Within the Company, the Credit Approval and Risk Management Division and the Strategy and Finance Division exercise functional control over the guidelines, methodology and infrastructure of the Bank Group's risk management strategy, the purpose of which is to create a clearly defined, transparent, standardised credit, country, counterparty, market and operational risk management system at group level which complies with the Basel requirements, the expectations of the supervisory authority and local conditions. The Bank Group's Risk Strategy, as well as the rules on risk prescribed by the Credit Institutions Act, are approved by the Bank's Board of Directors.

The Risk Strategy determines, with respect to the entire Bank Group, the framework for risk management and the principles and guidelines of risk assumption.

With respect to the cornerstones of the risk management methodologies, and the main risk topics for Bank Group members, the final decision-making competence is held by the Group members' risk committees (Credit and Limit Committee, Workout Committee, Group Operational Risk Committee).

The Bank's risk management system encompasses the identification of the risks, assessment of their impact, elaboration of the necessary action plans, and the monitoring of their effectiveness and results. The management make their business decisions in a knowledge of all the key risks. All significant risks related to internal and external operations, or to compliance with financial and legal requirements, as well as numerous other risks, are evaluated and managed using a clearly-defined and transparent internal mechanism.

Compliance

In accordance with EU regulations and with the Hungarian statutory provisions an independent organisational unit (the Compliance and Security Directorate) operates at the Company, with the task of exploring and managing compliance risks. This function is supported by the appropriate regulatory documents: the compliance policy, strategy and work plan. The purpose of the compliance policy is to establish the framework of compliance activities in respect of the entire Bank Group, to determine the definition, purpose of compliance and the tasks and scope of the function. Another important document of the compliance policy is the Bank Group's compliance strategy. The compliance policy is approved by the Board of Directors of the Bank. The Compliance and Security Directorate prepares a comprehensive report each year about the Bank Group's compliance activities and position, which is approved by the Bank's Board of Directors. The Bank Group's senior management is responsible for the implementation in practice of the compliance policy.

Auditor

The General Meeting has the authority to elect the company performing the audit, and to approve the nomination of the member responsible for the audit.

Our Company is audited by Deloitte Auditing and Advisory Kft. (Cg. 01-09-071057). Last year the auditor did not perform any activity that might have compromised its independence.

The Board of Directors must inform the Company's General Meeting and Supervisory Board if the auditor is given any other material mandates. In addition, if warranted, the Company's Board of Directors, Supervisory Board and other boards may use the services of an external consultant as well.

1.6. Disclosure of information

Providing regular, authentic information is essential if the shareholders and the other participants in the capital market are to make sound decisions, and the way in which the Company discloses information also has an impact on its reputation.

The Company discloses information in strict compliance with the provisions of Act V of 2013 on the Civil Code (hereinafter: Civil Code), the Capital Market Act, the Credit Institutions Act, Act CXXXVIII of 2007 on Investment Firms and Commodity Dealers, and the Regulations governing their Activities (hereinafter: Investment Services Act), Act C of 2000 on Accounting (hereinafter: Accounting Act) and Ministry of Finance Decree 24/2008 (VIII. 15), as well as the relevant regulations of the BSE. In addition, the Company has effective internal regulations that ensure compliance with the obligation to disclose information.

The aforementioned regulations ensure that all material information pertaining to the Company and having a bearing on the price of the Company's shares is published accurately, in full, and in good time.

The Board of Directors describes its business and strategic goals of the given year at every ordinary General Meeting. The proposal to the General Meeting is published by the Company on the website of the Budapest Stock Exchange in accordance with its rules of disclosure and the provisions of the relevant regulations of the BSE.

The Company, in accordance with the statutory regulations, publishes on the Company's website and in its Annual Report the professional careers of the members of the Board of Directors, the Supervisory Board and the management.

The proposal pertaining to the remuneration of the chairman and members of the Board of Directors and the chairman and members of the Supervisory Board constitute a part of the proposals of the General Meeting.

The Company has detailed risk management regulations that include every type of risk (liquidity, market, country, counterparty, credit, operational, compliance) which are consistent with the statutory regulations pertaining to prudential banking operation. The Annual Report provides information about the Company's risk management practices, the relevant limits and compliance with the limits.

The Company has detailed internal regulations pertaining to insiders and potential insiders that fully comply with the restrictions and prohibitions regulated in detail by the Capital Market Act. In addition, the guidelines pertaining to securities trading by insiders are also available on the website. All transactions involving the Company's shares performed by the members of the Board of Directors and the Supervisory Board are published by the Company in accordance with the rules on disclosure, and the shareholdings in the Company of the officers of the Company (number of shares) are published in the Company's Annual Report.

The Board of Directors has assessed the effectiveness of information disclosure processes in 2015, and found them to be satisfactory.

1.7. Overview of the exercising of shareholders' rights

Participation in the General Meeting and voting rights

Shareholders may exercise their right of participation and their voting rights at the General Meeting, in person or by proxy.

The letters of proxy must be set forth in a notarised deed or a private document of full probative force. In the event that a shareholder is represented at the General Meeting by its legal representative (e.g. director, managing director, mayor etc.), the authenticated deed issued by the court or court of registration concerning the right of representation, or a certificate testifying to the election of the mayor, must be presented at the venue of the General Meeting.

The letters of proxy must be handed over at the location specified in the invitation to the General Meeting, within the allotted time. The authorisation shall be valid only for a General Meeting or for a specified period not exceeding twelve months. Unless otherwise regulated, the authorisation shall be valid for the continuation of a suspended General Meeting and for re-convened General Meetings by reason of the lack of quorum. If the letter of proxy was

issued outside Hungary, it must satisfy, in terms of its form, the statutory provisions pertaining to the authentication or counter-authentication of documents issued outside Hungary. Information on the subject can be obtained from the Hungarian representation offices abroad.

A condition of participation and voting in the General Meeting is that

- the shareholding as at the time of the shareholder matching procedure is corroborated by the result of the shareholder matching procedure;
- the holder of the shares has been effectively entered into the Company's Share Register by the time of its closure in accordance with point 8.4;
- the shareholder's shareholding or voting right does not violate the statutory provisions or the provisions of the Company's Articles of Association, which the Company ascertains through a check following receipt of the result of a holder matching procedure from KELER Zrt;

The rules on participation in the General Meeting and the exercising of voting rights on the part of GDR holders are contained in the Custody Agreement concluded between the Bank of New York and OTP Bank.

Further details are contained in the Company's Articles of Association on our website.

1.8. Brief description of the rules related to the conducting of the General Meeting

The Company requests a shareholder-matching procedure for the date of the General Meeting (including any repeated General Meeting), as a corporate event, from the Central Clearing House and Depository (Budapest) Ltd. (KELER Zrt.). The shareholder-matching procedure may take place only in the period between the 7th and 5th trading day at the stock exchange prior to the General Meeting (including any repeated General Meeting). The rules pertaining to the shareholder-matching procedure are contained in the effective regulations of KELER.

The Company, at 18:00 Budapest time on the second working day before the General Meeting (or repeated General Meeting), deletes all the data in the Share Register and at the same time registers the results of the shareholder identification process in the Share Register, and closes it with the results of the shareholder identification. After this any entry related to the shareholder's holding may only be made, at the earliest, on the working day following the closure of the General Meeting or following the day of the non-quoted General Meeting..

The General Meeting must be announced in the manner specified in respect of announcements made by the Company, at least 30 days before the projected date of the General Meeting, unless otherwise stipulated in the Civil Code and the Credit Institutions Act. The (extraordinary) General Meeting, that is to decide on a capital increase necessary in order to avoid the proceeding referenced in Article 135 (2) of the Credit Institutions Act, can be announced at least 10 days before the projected date of the meeting.

The invitation must include the following:

- a) the Company's official name and registered office;
- b) the date and place of the General Meeting;
- c) the manner in which the General Meeting is to be held;
- d) the agenda of the General Meeting;

- e) the provisions contained in section 8.5 of the Articles of Association, with the reminder that shareholders may participate in and vote at the General Meeting only in compliance therewith;
- f) information about the place and date of the handing over of the letters of proxy;
- g) in the event that there is no quorum, the place and date of the reconvened General Meeting
- h) the time of shareholder identification and closure of the Share Register,
- i) the fact that in order to exercise shareholder's rights the shareholder must be listed in the Share Register at the time of its closure, but subsequent to this the shares may be freely traded without this affecting the ability to exercise shareholder's rights,
- j) the conditions, stipulated in the Articles of Association, for exercising the shareholder's right to request information,
- k) the conditions, stipulated in the Articles of Association, for exercising the shareholder's right to supplement the agenda of the General Meeting, and
- l) information regarding the time, place and means (including the address of the Company's website) of accessing the motions and draft resolutions on the agenda of the General Meeting.

Questions not listed on the agenda may be discussed by the General Meeting only if all shareholders are present and they give their unequivocal consent thereto.

The General Meeting is regarded as having a quorum if the votes of the attending shareholders represent more than one-third of the total votes embodied by shares entitling the holder to vote.

If a duly convened General Meeting does not have a quorum, then the repeated General Meeting – convened for the time and date and venue specified in the announcement that is published in accordance with section 8.13 of the Articles of Association – shall have a quorum in respect of the agenda items set forth in the invitation irrespectively of the extent of the voting rights represented by those in attendance. If the agenda of the General Meeting includes a proposal relating to the withdrawal of the shares from any regulated market (hereinafter: delisting), then the repeated General Meeting shall have a quorum in respect of such agenda item if shareholders representing more than half of the votes embodied by the shares conferring voting rights are in attendance.

If a General Meeting that has a quorum cannot pass a resolution in respect of all the items on the agenda, it may decide to suspend the meeting and to convene a follow-up General Meeting, while indicating the new time and place. The General Meeting may only be suspended once, and the follow-up General Meeting must be held within 30 days of the suspension.

In respect of the quorum of a suspended and then reconvened General Meeting (follow-up General Meeting), the general rules apply. The follow-up General Meeting may pass decisions only in respect of the announced agenda items of the original General Meeting in respect of which the original General Meeting did not make a decision.

The General Meeting is chaired by the Chairman of the Board of Directors or another person designated by the Board of Directors who

- opens the General Meeting;
- appoints the person responsible for taking minutes;
- determines whether the General Meeting has a quorum;
- gives and revokes the right to speak;
- formulates draft resolutions and puts them to the vote;

- announces the result of the vote on the basis of the results indicated by the vote counters;
- announces the intermission; and
- closes the General Meeting.

Prior to the opening of the General Meeting, shareholders who have voting devices may notify the Chairman of the General Meeting in writing if they would like to speak in relation to any of the agenda items. The comments made by the shareholders may not be on a topic that is different from the designated agenda item. The Chairman of the General Meeting must grant the right to speak to persons who have indicated their desire to speak in accordance with the above.

The Chairman of the General Meeting may determine the order in which the comments on the given agenda item will be heard, may grant any person the right to speak or may retract such right, with the proviso that the right to speak may be retracted from a shareholder who has indicated his/her wish to speak in writing only if the shareholder's comments depart from the given agenda item despite a warning in this regard. The Chairman of the General Meeting may prohibit the recording in the minutes of comments that are made after the right to speak is retracted, and may terminate the availability of the technical conditions (microphone) for making such comments.

The Chairman of the General Meeting may decide to hold the General Meeting in private, and, with the exception of the members of the Board of Directors, the executives specified in the Credit Institutions Act, the members of the Supervisory Board, the auditor, shareholders with voting terminals, and the representatives of such shareholders as well as the representatives of the MNB and the BSE, he may exclude anyone from attending the General Meeting.

The General Meeting passes its resolutions, unless the Company's Articles of Association stipulate otherwise, through a simple majority of the votes of the attending shareholders.

Decisions at the General Meeting are made by open vote.

In its first resolution, the General Meeting selects, from the list proposed by the Chairman of the General Meeting, the attending shareholders who will act as the authenticator of the minutes and the vote counters. In the case of an unsuccessful vote the Chairman of the Meeting must submit a new proposal.

Minutes must be taken of the General Meeting, which must include the following:

- the Company's official name and registered seat;
- the date and place of the General Meeting and the manner in which it is held;
- data necessary for determining whether the General Meeting has a quorum and changes in the number of persons attending;
- the name of the Chairman of the General Meeting, the person taking the minutes, the authenticator of the minutes and the name of the vote counters;
- the most important events at the General Meeting and the proposals made;
- the draft resolutions, in the case of each resolution the number of shares with respect to which valid votes have been cast, the share represented by these votes in the share capital, the number of votes for and against the proposals and the number of those who abstained;
- objections to a resolution by any shareholder and any member of the Board of Directors or the Supervisory Board if the person objecting requests it himself.

The minutes are signed by the Chairman of the General Meeting and the person taking the minutes and are authenticated by an attending shareholder who has been selected for this purpose.

The Board of Directors must send the Company Court an authenticated copy of the minutes of the General Meeting within 30 days after the General Meeting is adjourned, together with the attendance register and the documents that certify that the General Meeting was properly convened.

Further details are contained in the Company's Articles of Association on our website.

1.9. Declaration on Remuneration

In compliance with the applicable European Union directive (CRD IV) and the provisions of the Act on Credit Institutions and Financial Enterprises, the Bank's General Meeting of 2014, its Board of Directors and Supervisory Board have provided for the elaboration of a new Remuneration Policy for the Bank and the Bank Group. In line with the changes to the national and EU legislative environment, the process of implementing the Bank Group's Remuneration Policy has been augmented with a methodological framework relating to the identification of activities and employees with a material impact on risk, which constitutes the basis for determining the group of persons subject to the Bank Group's Remuneration Policy, and with procedural rules relating to the annual evaluation process.

The purpose of the Bank Group's Remuneration Policy is, remaining within the limits of the Bank Group's risk-bearing capacity, to recognise and provide motivational support for the achievement of Bank and Group-level results by the management and holders of key positions at the Bank, and the managers of subsidiaries in the Bank Group.

The Bank Group's Remuneration Policy applies to the members of the Bank's Board of Directors and Supervisory Board, and – among the staff in an employment relationship with the Bank – the members of the Bank's Management (Chairman & CEO and the deputies thereof), and managers who materially influence the Bank's risk profile and its profit, managers performing special executive functions, managers with control functions, all managers whose salaries are in the same pay scale as that of the managers who are subject to the Remuneration Policy due to their function. Among the managers employed by the subsidiaries of the Bank Group that are subject to consolidated supervision, the subsidiaries' chief executive officers, and in the case of certain subsidiaries their level-2 (deputy) managers, and the managers of certain foreign subsidiary banks with special management and decision-making authority determined under national statutory provisions. The resolution on the persons to whom the Bank Group's Remuneration Policy applies is made by the Bank's Supervisory Board.

The members of the Board of Directors and the Supervisory Board receive an honorarium of a fixed amount for their work in this capacity, and do not receive performance-based remuneration.

For the other personnel included in the scope of the Remuneration Policy, the remuneration is composed of fixed and performance-based components. The proportions of fixed and performance-based components of remuneration are determined by the Bank's Supervisory Board based on the function, size and complexity of the unit being managed. The proportion of performance-based remuneration may not exceed 100% of fixed remuneration for any person concerned.

The most important basic principle of the Bank Group's Remuneration Policy is that the extent of performance-based remuneration – subject to a preliminary and retrospective assessment of the risks – depends on the extent to which Bank Group/Bank/Subsidiary-level and individual targets are met.

In the case of managers in an employment relationship with the Bank, the evaluation of performance, besides an assessment of the return on risk-weighted assets (RORAC) indicator for the given activity, takes place on the basis of the criteria used to measure individual performance (financial indicators and indicators of the quality of work performance). In the case of managers at subsidiaries in the Bank Group the evaluation of performance takes place in a differentiated manner, in keeping with the characteristics of the companies' activities. The target values of the indicators are determined by the Bank's Supervisory Board on the basis of the effective financial plan for the given year.

The performance evaluation-based, variable remuneration takes the form of a cash bonus and – where permitted by national legislation – a preferentially-priced share package, in equal proportions. At all the members of the Bank Group, the share-based part of the variable remuneration is provided to the employees concerned by the Bank.

In keeping with the Credit Institutions Act, as a general rule, payment of 60% of the variable remuneration is staggered over a period of three years, during which period the deferred amount is determined annually in equal proportions. Determination of eligibility to receive the deferred instalments takes place on the basis of a retrospective assessment of the risks. The assessment of the risks is based both on quantitative criteria used to measure prudent operation, and on qualitative evaluation criteria. Based on the assessment of the risks related to the activities of the employees concerned, the deferred part of the performance-based remuneration may be reduced or withheld completely. A further prerequisite for entitlement to the deferred part is a continuing employment relationship.

The remuneration of the members of the Supervisory Board and the Board of Directors, which is determined in a resolution of the General Meeting, is public, while with respect to the remuneration policy, the Bank complies with its public disclosure obligation in accordance with the prevailing statutory provisions.

1.10. Evaluation of the work of the Board of Directors, the Supervisory board and the management

In accordance with the expectations of the supervisory authority, the execution capabilities of the Board of Directors, the Supervisory Board and the management were evaluated with respect to the affected managers, in the framework of the 2015 annual performance evaluation. The evaluation was performed along the following dimensions: business thinking, business and operational development, governance, relationship and resource management, integrity and personal drive. Based on the results of the evaluation, no issue has arisen that would necessitate action.

2.) CG Report on compliance with the Corporate Governance Recommendations

As part of the Corporate Governance (CG) Report, the Company states, by completing the following tables, the extent to which it has implemented the recommendations and guidances specified in the specific sections of the Corporate Governance Recommendations (hereinafter: CGR) of the Budapest Stock Exchange in its own corporate governance.

R 2.7.7 The Company has prepared a Declaration on Remuneration and presented it to the General Meeting.

No

In compliance with the applicable European Union directive (CRD IV) and the provisions of the Credit Institutions Act, the Bank's General Meeting of 2014, and its Board of Directors and Supervisory Board, have provided for the elaboration of a new Remuneration Policy for the Bank and the Bank Group. In line with the changes to the national and EU legislative environment, the process of implementing the Bank Group's Remuneration Policy has been augmented with a methodological framework relating to the identification of activities and employees with a material impact on risk, which constitutes the basis for determining the group of persons subject to the Bank Group's Remuneration Policy, and with procedural rules relating to the annual evaluation process.

The purpose of the Bank Group's Remuneration Policy is, remaining within the limits of the Bank Group's risk-bearing capacity, to recognise and provide motivational support for the achievement of Bank and Group-level results by the management and holders of key positions at the Bank, and the managers of subsidiaries in the Bank Group.

The Bank Group's Remuneration Policy applies to the members of the Bank's Board of Directors and Supervisory Board, and – among the staff in an employment relationship with the Bank – the members of the Bank's Management (Chairman & CEO and the deputies thereof), and managers who materially influence the Bank's risk profile and its profit, managers who perform special executive functions, managers with control functions, all managers whose salaries are in the same pay scale as that of the managers who are subject to the Remuneration Policy due to their function. Among the managers employed by the subsidiaries of the Bank Group that are subject to consolidated supervision, the subsidiaries' chief executive officers, and in the case of certain subsidiaries their level-2 (deputy) managers, and the managers of certain foreign subsidiary banks with special management and decision-making authority determined by the provisions of relevant national legislation. The resolution on the persons to whom the Bank Group's Remuneration Policy applies is made by the Bank's Supervisory Board.

The members of the Board of Directors and the Supervisory Board receive an honorarium of a fixed amount for their work in this capacity, and do not receive performance-based remuneration.

For the other personnel included in the scope of the Remuneration Policy, the remuneration is composed of fixed and performance-based components. The proportions of fixed and performance-based components of remuneration are determined by the Bank's Supervisory Board based on the function, size and complexity of the unit being managed. The proportion of performance-based remuneration may not exceed 100% of fixed remuneration for any person concerned.

The most important basic principle of the Bank Group's Remuneration Policy is that the extent of performance-based remuneration – subject to a preliminary and retrospective assessment of the risks – depends on the extent to which Bank Group/Bank/Subsidiary-level and individual targets are met.

In the case of managers in an employment relationship with the Bank, the evaluation of performance, besides an assessment of the return on risk-weighted assets (RORAC) indicator for the given activity, takes place on the basis of the criteria used to measure individual performance (financial indicators and indicators of the quality of work performance). In the case of managers at subsidiaries in the Bank Group the evaluation of

performance takes place in a differentiated manner, in keeping with the characteristics of the companies' activities. The target values of the indicators are determined by the Bank's Supervisory Board on the basis of the effective financial plan for the given year.

The performance evaluation-based, variable remuneration takes the form of a cash bonus and – where permitted by national legislation – a preferentially-priced share package, in equal proportions. At all the members of the Bank Group, the share-based part of the variable remuneration is provided to the employees concerned by the Bank.

In keeping with the Credit Institutions Act, as a general rule, payment of 60% of the variable remuneration is staggered over a period of three years, during which period the deferred amount is determined annually in equal proportions. Determination of eligibility to receive the deferred instalments takes place on the basis of a retrospective assessment of the risks. The assessment of the risks is based both on quantitative criteria used to measure prudent operation, and on qualitative evaluation criteria. Based on the assessment of the risks related to the activities of the employees concerned, the deferred part of the performance-based remuneration may be reduced or withheld completely. A further prerequisite for entitlement to the deferred part is a continuing employment relationship.

The remuneration of the members of the Supervisory Board and the Board of Directors, which is determined in a resolution of the General Meeting, is public, while with respect to the remuneration policy, the Bank complies with its public disclosure obligation in accordance with the prevailing statutory provisions.

The Declaration on Remuneration contains the remuneration of certain members of the Board of Directors, the Supervisory Board, and the management.
