

Corporate Governance Report

Introduction

OTP Bank Plc. (hereinafter: OTP Bank, Bank or Company) regards the development and maintenance of an **advanced corporate governance system** that conforms to local and international standards as being of primary importance. A reliable governance system, accurate financial planning, responsible management and the appropriate control mechanisms provide a stable basis for efficient and profitable operation.

To this end, the Bank is continuously reviewing and developing its corporate governance practices.

Our corporate governance practice is an important means of ensuring the **fulfilment of our strategic objectives**. Accordingly, within the effective statutory frameworks, we have developed a corporate governance system that simultaneously ensures the confidence and satisfaction of our customers, growth in shareholder value, and our socially responsible corporate conduct. There is no perfect, universally applicable corporate governance solution through which every goal can be achieved as efficiently as possible. For this reason we continuously monitor our governance practices, identifying any deficiencies arising as the result of external and internal changes, and effect those modifications that best serve the fulfilment of our objectives.

The resulting governance structure, optimised to suit our objectives, takes into account the special characteristics of our operations as well as the statutory, supervisory and stock-market requirements that apply to the Bank, while also endeavouring to comply with the related Budapest Stock Exchange (hereinafter: BSE) guidelines. The purpose of the BSE's corporate governance guidelines is for the governance and operating structures of stock exchange-listed companies to be **transparent and comparable** based on a uniform set of criteria. This enables investors, taking into consideration the special characteristics of a given company's operations, the complexity of its activities, and the statutory requirements related to its risk management and financial reporting, to make a well-founded judgement regarding the extent to which the given corporate governance practice ensures reliable and profitable operation.

Like all organisations that provide financial and investment services, the operations of the Bank are, to a high degree, regulated in statutory provisions. As a consequence, not only certain business activities, but our operations as a whole are regulated in detail and monitored by the authorities on a continuous basis. The individual internal control functions (risk management, compliance, and internal audit) have to conform to strict standards, and their effectiveness must be attested not only within the internal corporate governance system, but also to the satisfaction of the external supervisory authorities. All these factors guarantee purposeful, comprehensive and verified risk management procedures, as well as reliable and appropriately supervised data reporting. Therefore, our status as a financial and investment service provider requires us to implement complex and effective corporate governance practices that simultaneously ensure **responsible conduct towards clients and shareholders, reliable operation, and long-term profitability**.

1.) Statement on Corporate Governance Practice

The Bank's operation fully complies with the provisions of the relevant statutory regulations, the decrees of the supervisory authorities and the regulations of the BSE. The structure and operating conditions of the Company are contained in the Articles of Association, which are approved by the General Meeting.

1.1. General Meeting

The supreme body of the Bank shall be the General Meeting consisting of the shareholders. The Articles of Association regulate the manner of convocation and operation of the General Meeting, the manner of participation, and of the exercise of voting rights.

The General Meeting shall be convened at least once annually by the Board of Directors.

1.2. Management bodies

1.2.1. Board of Directors

The Board of Directors is an executive body elected by the General Meeting of the Bank. The Board of Directors shall be entitled and obliged to make all decisions which are not within the competence of the General Meeting, the Supervisory Board or the Audit Committee as defined by law, the Articles of Association, or a resolution of the General Meeting.

The liability of the Board of Directors extends to the operation of the entire Company, as part of which the Board's main tasks include the approval of the Company's strategy, annual report, major organisational restructurings and policies, as well as making other significant company law-related decisions. In its objectives and activities, particular emphasis is placed on increasing shareholder value, profitability and efficiency, and on managing risks and complying fully with external requirements – in other words on ensuring the most effective enforcement of business, ethical and internal control policies.

The scope of its authority is defined in the effective statutory provisions, the Bank's Articles of Association, General Meeting resolutions, and the Organisational and Operational Regulations. Its rules of procedure include the legal status and composition of the Board of Directors, as well as the regulations applicable to its operation and decision making.

All the obligations and prohibitions specified for executive officers under Act CCXXXVII of 2013 on Credit Institutions and Financial Enterprises (Credit Institutions Act) apply to the members of the Board of Directors.

The Board of Directors has an executive role in the governance of the Bank, and this is reflected in its members' remuneration, an important element of which is the share-based honorarium, which serves to harmonise the interests of the board with those of the shareholders.

The Chairman directs the work of the Bank's Board of Directors in accordance with the Articles of Association and the Rules of Procedure of the Board of Directors. The Chairman is authorised to decide in all matters that do not, pursuant to the Articles of Association, fall within the scope of authority of the General Meeting, the Board of Directors, the Supervisory Board or the Audit Committee.

It oversees the Company's operative management through the CEO. The CEO establishes and manages the Company's organizational structure and is responsible for the executive management activities that comply with the shareholder expectations and the provisions of the Bank's Articles of Association. The CEO directs the activities of the organizational units and employees under his direct supervision. The powers of the Chairman and the CEO are defined in detail in Chapter V of the Bank's Organisational and Operational Rules.

The employer's rights related to the executive officers of the Company are in general exercised by the Board of Directors as a corporate body, with the proviso that in the case of the executive officers, employer's rights are exercised through the Chairman, and the prior notification of the Board of Directors is required for their appointment and for the withdrawal of their appointment. In the event of a close relative relationship, the employer's rights are exercised directly by the Board of Directors.

In view of the fact that the Board of Directors also has an important role to play in overseeing the work of the management, it is of substantive importance that **the principle of a majority of external (non-executive) members be implemented in respect of the Board of Directors** (3 executive members, 8 non-executive members). The makeup of the Board of Directors ensures that professional expertise, experience, and a degree of impartiality that goes beyond the above-mentioned independence requirement, are brought to bear in equal measure in the decision-making processes.

Operation of the Board of Directors of OTP Bank Plc.

The Board of Directors exercises its rights and performs its duties as a body. The division of responsibilities and powers between the Members of the Board of Directors is decided by the Board of Directors. This division of tasks does not affect the statutory liability of the Board of Directors, or of the individual members of the Board of Directors.

The Board of Directors usually makes its decisions at its meetings; however, in accordance with the Articles of Association and the rules of procedure of the Board of Directors, it may also make decisions without holding a meeting.

Meetings of the **Board of Directors** are convened by the Chairman by means of a written invitation, in accordance with the prevailing work schedule.

The Chairman must convene a meeting of the Board of Directors if

- the Board of Directors has passed a resolution calling for an expedited meeting of the Board of Directors;
- at least three members of the Board of Directors initiate a meeting in writing by designating the reason and the purpose, and the agenda items, and by submitting a written proposal in respect of the decision to be made;
- the Supervisory Board or the auditor initiates such a meeting in writing;
- the National Bank of Hungary requires it;
- under the law, a decision must be made about whether to convene an extraordinary General Meeting.

The meetings of the Board of Directors shall be held as necessary, but at least six times a year in accordance with the Articles of Association.

In accordance with the rules of procedure, the Board of Directors passes resolutions by simple majority, except in certain qualified cases; minutes must be taken of its meetings, and its resolutions shall be documented.

If decisions are made without convening a meeting, instead of the minutes, a summary must be prepared of the resolutions, and these must be attached to the minutes of the next meeting of the Board of Directors that follows the successful written vote.

Both the minutes and the summary of resolutions shall contain the events taking place during the passing of resolutions in such detail as is necessary to ensure that relevant circumstances are reproducible even for a third party (important aspects considered, main arguments and counter-arguments, important comments, aspects determining the proposal for resolution, shares of votes, content of decisions on the merits).

The table below provides a brief overview of the number of Board of Directors meetings held in 2024, and of the attendance at these meetings:

Board of Directors meetings
2025

<i>Date</i>	<i>Present</i>	<i>Absent</i>
17.02	11	-
19.03	11	-
25.04	10	1
24.06	10	1
09.09	11	-
04.11	9	2
11.12	11	-

Note:

In 2025 the Board of Directors met on a total of 7 occasions. In addition, resolutions were passed on 183 occasions by written vote.

The items on the agenda of the Board of Directors included, among other things, the tasks stipulated by law, such as making a decision on convening, and specifying the agenda of, the General Meeting, the acceptance of the documents submitted to the annual ordinary General Meeting, preparing a proposal concerning the annual report prepared in accordance with the Accounting Act and the use of the after-tax profit, preparation of the report on the management, on the Company's asset/liability position and on its business policy, measures taken to ensure the appropriate management of the Bank's trading books.

Other tasks that are outstanding from a corporate governance point of view: acceptance and practical implementation of the banking group's strategy and business policy, alignment of the group's organisational structure and operational strategy with the group's strategy, risk profile and role in the financial intermediation system, approval and review of policies falling within its competence (lending policy, collateral valuation, risk assumption, customer rating policy, etc.), ensuring the effectiveness of internal defense lines, ensuring a sustainable business model that takes into account all risks, including ESG¹ risks. It quarterly assesses the development of the banking group's portfolio quality and receives information on obligations in excess of HUF 3 billion. In addition, as part of its operative duties, the Board of Directors may make case-by-case decisions in respect of transactions that exceed the threshold value limit.

1.2.2. Supervisory Board

At the Bank, in line with the two-tier governance structure, the Supervisory Board – as a body elected by the General Meeting – performs the oversight of the Company's management, business activity and legal operation and fulfils the responsibilities assigned to it by the Credit Institutions Act.

In accordance with the legal provisions – the principle of a majority of independent (non-executive) members is fully enforced in respect of the composition of the Supervisory Board. The ratio of independent (non-executive) Supervisory Board members (4 persons) to the total number of Supervisory Board members (6 persons) is 67%.

¹ E: Environmental; S: Social; G: Governance

The rules applicable to the appointment and recall of the employee delegate of the Supervisory Board are defined by the Works Council operating at the Company, and the Company does not consider such a member to be independent.

In order to avoid conflicts of interest, the General Meeting may not appoint the members of the Board of Directors and their close relatives to the Supervisory Board.

The liability of the Supervisory Board extends to the supervision of the lawfulness of the Company's operation, its business practices and management, including the control of the Company's internal audit unit. The prior consent of the Supervisory Board is required for decisions related to the appointment and termination of employment of the head of the internal audit function, the head of the Compliance Directorate, the Compliance Officers, and the managers responsible for risk control functions.

It is the task of the Supervisory Board to accept and regularly review – within the limits defined by the General Meeting – the principles of the Remuneration Policy.

The Supervisory Board's work is supported by the Bank's Audit Committee, Remuneration Committee, Nomination Committee as well as the Risk Assumption and Risk Management Committee.

Members of the Supervisory Board of OTP Bank Plc.:

Operation of the Supervisory Board of OTP Bank Plc.

As stipulated in the Articles of Association, the **Supervisory Board** meets at least six times a year.

The meetings of the Supervisory Board are convened by the chairman. The meetings must also be convened if a member of the Supervisory Board or at least two members of the Board of Directors, or the auditor, requests it in writing, indicating the objectives and reasons for the meeting.

In accordance with the rules of procedure, the Supervisory Board passes resolutions by simple majority, except in certain qualified cases; minutes must be taken of its meetings, and its resolutions shall be documented.

If decisions are made without convening a meeting, instead of the minutes, a summary must be prepared of the resolutions and these must be attached to the minutes of the next Supervisory Board meeting that follows the successful written vote.

Both the minutes and the summary of resolutions shall contain the events taking place during the passing of resolutions in such detail as is necessary to ensure that relevant circumstances are reproducible even for a third party (important aspects considered, main arguments and counter-arguments, important comments, aspects determining the proposal for resolution, shares of votes, content of decisions on the merits).

The table below provides a brief overview of the number of Supervisory Board meetings held in 2025, and of the attendance at these meetings:

Supervisory Board Meetings **2025**

<i>Date</i>	<i>Present</i>	<i>Absent</i>
<i>16.01</i>	<i>4</i>	<i>2</i>
<i>17.02</i>	<i>5</i>	<i>1</i>
<i>19.03</i>	<i>5</i>	<i>1</i>
<i>22.05</i>	<i>6</i>	<i>-</i>
<i>03.06</i>	<i>5</i>	<i>1</i>
<i>06.11</i>	<i>5</i>	<i>1</i>
<i>11.12</i>	<i>6</i>	<i>-</i>

Note:

In 2025 the Supervisory Board met on a total of 7 occasions. In addition, resolutions were passed on 91 occasions by written vote.

The main function of the Supervisory Board is to see to it that the Bank has a comprehensive and effectively operating system of oversight and control, and to manage the internal audit unit as well as to verify the operational efficiency of internal lines of defence. It is also responsible for verifying the financial institution's annual and interim financial statements, making a suggestion to the annual General Meeting for the acceptance of the documents, reports and annual reports verified by it and submitted to the annual General Meeting, as well as for the acceptance of the proposal for the use of after-tax profits, and the person and remuneration of the auditor to be elected.

The tasks concerning the management of the internal audit organisation include the acceptance of the audit plan at the bank-group level, and the discussion of the report at the bank-group level of the audits performed by the internal audit units and of the performance of the audit tasks at the bank-group level.

The principles and frameworks of the long-term remuneration and incentives system for employees in senior positions are determined by the General Meeting. With effect from 2014, the principles of the Bank Group's Remuneration Policy are approved and reviewed by the Supervisory Board, while the Board of Directors is responsible for the annual internal audit of the Policy.

Additional agenda items of the meetings of the Supervisory Board included: compliance with the provisions of the Credit Institutions Act, the operation, at group level, of the Unified Internal Audit System and the further development of the system, a review of the volume and composition of the qualified receivables portfolio, annual compliance report, the Safeguarding officer's report on the protection of customers' financial assets, etc.

1.3 Audit Committee

The Audit Committee, consisting of independent members of the Bank's Supervisory Board elected by the General Meeting, is a body that assists the work of the Supervisory Board in relation to the monitoring of the financial reporting system, selection of the auditor, and cooperation with the auditor. Under its powers it monitors the internal audit, risk management, financial and sustainability reporting systems, as well as the auditor's activity (including its activities to provide assurance on the sustainability report and the consolidated sustainability report). In addition to the auditor's audit activity, the Audit Committee reviews and monitors – in respect of the entire OTP Bank Group – the auditor's independence (including the independence of the auditor selected to provide assurance on the sustainability report), with special regard to the performance of any non-prohibited non-audit services to be provided by the auditor. Furthermore, it fulfils the audit committee tasks of several domestic subsidiary banks.

Members of OTP Bank Plc's Audit Committee:

The Audit Committee consists of four members who are elected for a term of three years. The Audit Committee elects a chairperson from among its own members. In 2023, the mandate of the members of the Audit Committee expired. The General Meeting held on 28 April 2023 all of them were re-appointed as members of the Supervisory Board.

Operation of OTP Bank Plc.'s Audit Committee

The Audit Committee meets at least two times a year, in accordance with its current rules of procedure.

The table below provides a brief overview of the number of Audit Committee meetings held in 2025, and of the attendance at these meetings:

Audit Committee meetings **2025**

<i>Date</i>	<i>Present</i>	<i>Absent</i>
<i>19.03</i>	<i>3</i>	<i>1</i>
<i>11.12</i>	<i>4</i>	<i>-</i>

Note:

In 2025 the Audit Committee met on a total of 2 occasions. In addition, resolutions were passed on 31 occasions by written vote.

The items on the agenda of the Audit Committee meetings included, among others, a briefing on the profit approved by the Company's auditor, the Company's non-consolidated financial statements prepared in accordance with International Financial Reporting Standards, the report on the financial statements and on the proposal regarding the distribution of the profit, the outcome of the activities to provide assurance on the sustainability report and a recommendation on the selection of the Company's auditor, approval of the person nominated to be responsible for the audit, and the determining of his/her remuneration.

The proposals submitted by domestic subsidiary banks as well as the quarterly reports on contracts for non-prohibited auditor's services, have also been included in the agenda of the Audit Committee.

Remuneration of the members of the Board of Directors, the Supervisory Board and the Audit Committee

Determining the remuneration of the Board of Directors, the Supervisory Board and the Audit Committee is in the competence of the Company's supreme body, the General Meeting.

1.4. The operation of the committees

A key consideration in the establishment of the composition of special and standing committees is the election of members who are capable of taking a position in all fields and professional matters within the competence of the committee.

1.4.1. Committees that operate with the participation of external members of the Company's Board of Directors and the non-executive members of the Supervisory Board:

Remuneration Committee

The Remuneration Committee, established by the Board of Directors and meeting on a continuous basis, prepares proposals to the management bodies for elaborating and monitoring the guidelines and system of remuneration, as well as for specific remuneration decisions.

The Remuneration Committee exercises its authority as a body.

Its chairperson and members are appointed by the Board of Directors, and its procedural rules are approved by the committee itself.

Members of the Remuneration Committee	
Chairman	Dr. József Zoltán Vörös
Members	Mihály Baumstark
	György Nagy

Nomination Committee

The Nomination Committee, which was established by the Board of Directors and operates on a continuous basis, elaborates the principles for selection of the members of the Bank's executive bodies, and nominates candidates accordingly, and also makes recommendations regarding the basic principles and framework for the testing of compliance with the requirements prescribed in respect of members of the executive bodies of the Bank and the Bank Group, and in respect of employees in management and key positions.

Its chairperson and members are appointed by the Board of Directors, and its procedural rules are approved by the committee itself.

Members of the Nomination Committee	
Chairman	Tibor Tolnay
Members	Dr. József Gábor Horváth
	Dr. Tamás Gudra

Risk Assumption and Risk Management Committee

The Risk Assumption and Risk Management Committee, which was established by the Board of Directors and operates on a continuous basis, fulfils a decision support function, commenting on the Bank's risk assumption strategy and risk appetite, and providing support for the supervision of implementation of the risk assumption strategy.

Its chairperson and members are appointed by the Board of Directors, and its procedural rules are approved by the committee itself.

Members of the Risk Assumption and Risk Management Committee	
Chairman	Tamás György Erdei
Members	Dr. József Zoltán Vörös
	Dr. István Gresa

1.4.2. Special committee:

Ethics Committee

A special committee of the Bank established by the Board of Directors – and consisting of delegated members thereof – presided over by one of the non-executive members of the Board of Directors. The committee gives guidance on compliance with standards of ethical conduct through its position statements issued in general and specific cases, and its decisions serving to assist with interpretation. The committee also makes decisions in the event of reports, relating to the Bank, made via the ethical complaints hotline, or investigates the reports and makes a decision in a second-tier procedure.

Its procedural rules are approved by the committee itself.

Ethics Committee	
Chairman	Mihály Baumstark

1.4.3. Standing committees established by the Board of Directors of the Bank in support of management functions:

Management Committee

The Management Committee is a standing committee established by the Board of Directors. It is a forum that directly supports the work of the Chairman and is the standing committee of the Bank. The Management Committee coordinates the preparation of strategic decisions and the implementation of the Bank's strategic and business policy objectives. It is responsible for adopting planning and resource allocation decisions affecting the Bank and the Bank Group as a whole, preparing shareholders' decisions, adopting a stakeholder system, and requesting regular reporting. It has decision-making powers in matters referred to its competence by the Organisational and Operational Regulations. It takes a preliminary position and prepares decisions in the majority of issues that are discussed by the General Meeting, the Board of Directors and the Supervisory Board, and plays a coordinating role in the senior management of the Bank.

The Management Committee performs its work on the basis of a six-month work schedule approved by the committee itself and meets once a month (and on an ad-hoc basis as and when necessary). Their order of business is determined by its procedural rules.

	Dr. Bálint Csere
	György Kiss-Haypál
	László Wolf
	Zoárd Gázmár

Executive Steering Committee

The Executive Steering Committee is a standing committee established by the Board of Directors. The Executive Steering Committee is a coordination and operational decision-making forum of the Bank's executive management. As a regular operational decision-making forum, it also ensures that the Bank is able to respond flexibly and effectively to market and regulatory factors and that the Bank as a whole is able to act in a coordinated fashion. Moreover, it ensures the discussion of proposals and information submitted to the management bodies (Board of Directors, Supervisory Board) that are not discussed by the Management Committee. In matters requiring a complex approach, the Committee is responsible for operational coordination between the Bank's departments and decision-making.

- Group Operational Risk Management Committee (OpRisk)
- Group Impairment Committee (ÉVB)
- Money Laundering Prevention Committee (PMB)
- Group Investment Committee (GIC)
- ESG Committee
- Risk Control Committee

Asset-Liability Committee

The Asset-Liability Committee (ALCO) is a standing committee established by the Board of Directors, which acts as the Bank's governing body in asset-liability management matters of the highest level.

Asset-Liability Committee	
Chairman	László Bencsik
Deputy Chairman	László Wolf

Product Development, Sales and Pricing Committee

The Product Development, Sales and Pricing Committee (TÉÁB) is a standing committee established by the Board of Directors. As a committee it deals with the products and services of the Bank and its domestic subsidiaries sold through the Bank's sales channels, including their normative pricing and their distribution through the various sales channels available, as well as with major campaigns.

Product Development, Sales and Pricing Committee	
Chairman	András Becsei
Deputy Chairman	László Wolf

International Product Development, Sales and Pricing Committee

The International Product Development, Sales and Pricing Committee (NTÉÁB) is a standing committee established by the Board of Directors to provide a management forum for the management of matters relating to the products and services of the Bank's foreign subsidiary banks, including their pricing and sales, and of any business disagreements that may arise between the Bank's foreign subsidiary banks and OTP Bank's business areas.

International Product Development, Sales and Pricing Committee	
Chairman	András Becsei
Deputy Chairman	László Wolf

Work-Out Committee

The Work-Out Committee (WOB) is a standing committee established by the Board of Directors. Its responsibility is to approve the collection strategy and submit it to the Board of Directors.

The Work-Out Committee exercises decision-making power in the enforcement of claims, the recovery of which is at risk in the portfolio of the Bank, and right of consent concerning such in the portfolios of the Bank's foreign subsidiaries, Merkantil Bank Zrt. and its subsidiaries, as well as OTP Factoring Ltd. and its foreign subsidiaries. The Work-Out Committee also acts as an NPL committee in charge of the general management of non-performing exposures, in the framework of which it pre-approves, reviews and supports the Bank's NPL strategy and supports its implementation in practice.

Work-Out Committee	
Chairman	Tamás György Erdei
Deputy Chairman	Tibor Csonka

Credit and Limits Committee

The Credit and Limits Committee (HLB) is a standing committee established by the Board of Directors. The core competence of the HLB essentially extends to decisions related to the assumption of credit risk towards clients by the Bank and the banking group, and, in the case of banking group members assuming credit risk, entails the exercise of decision-making or approval rights pertaining to this function. Its core competence covers the Bank's and the Bank Group's regulatory and methodological responsibilities related to lending and credit risk management, as well as decisions concerning the assumption of credit risk vis-à-vis of customers, and in case of Bank Group members that assume credit risk, it entails the exercise of the power of decision or consent concerning this area of responsibilities.

Credit and Limits Committee	
Chairman	György Kiss-Haypál
Deputy Chairman	László Wolf

Group Operational Risk Management Committee

The Group Operational Risk Management Committee (OpRISK) is a standing committee set up by the Board of Directors that monitors changes in operational risks, operational risk management activities and business continuity planning activities and ensures that regulatory risk management solutions required by domestic and international legislation and supervisory recommendations and expected by the management are in place and that reporting pathways are working properly.

Group Operational Risk Management Committee	
Chairman	György Kiss-Haypál
Deputy Chairman	Dániel Homolya

Group Impairment Committee

The Group Impairment Committee (ÉVB) is a standing committee established by the Board of Directors. The sphere of competence of the Committee includes Bank Group-level decisions about the methodological issues involved in the group valuation used in impairment recognition under IFRS 9.

Group Impairment Committee	
Chairman	György Kiss-Haypál

Money Laundering Prevention Committee

The Money Laundering Prevention Committee (PMB) is a standing committee established by the Board of Directors. In the course of its activities, it reviews the reports on the implementation of AML/CFT policies, procedures and controls, and, in the event of money laundering risks identified in the Bank's internal AML regulations, it decides, also at banking group level, on the continuation of the business relationship with the affected clients or on the approval of establishing such a relationship.

Money Laundering Prevention Committee	
Chairman	Dr. István Gresa
Deputy Chairman	Gábor Bucsek

Group Investment Committee

The Group Investment Committee (GIC) is a standing committee established by the Board of Directors. At group level, it decides on investment advice, offering proposals for capital-market issuance transactions in the case of new products, and the strategic asset allocation issues underlying portfolio management, also taking sustainability expectations into account.

Group Investment Committee	
Chairman	Attila Bánfi
Deputy Chairman	Tünde Molnár

ESG Committee

The ESG Committee is a standing committee established by the Board of Directors. Its role is to develop the ESG strategy, plans and policies, and to support the Bank's managing bodies in discharging their ESG duties.

ESG Committee	
Chairman	Gabriella Balogh
Deputy Chairman	Gergely Pókos

Risk Control Committee

The Risk Control Committee is a standing committee set up by the Board of Directors, whose purpose is to ensure oversight of risks at the bank and group level and to monitor the performance of the risk management system. In addition, in certain defined cases, it decides on the approval of issues related to risk control for the Bank and the Banking Group. Apart from the Head of the Risk Management Division, only the heads and representatives of risk control areas may be members.

Standing committees are the Bank's bodies in charge of preparing and making decisions as well as conducting consultations. The task of standing committees is to prepare and make decisions needed for the performance of the Bank's business activities, for minimising the Bank's risks and for ensuring its operation. Decisions to establish standing committees are made by the Bank's Board of Directors. The members of the committees are persons in charge of the professional areas concerned, who have exceptional expertise and all-round competence in the given matter. The chairpersons of the committees are nominated by the Chairman, and their rules of procedure – with the exception of the Management Committee and the Executive Steering Committee – are approved by the head of the Legal Directorate. The Management Committee and the Executive Steering Committee approve their own procedural rules. In respect of resolutions, the Asset-Liability Committee, the Credit and Limits Committee, the Group Operational Risk Management Committee, the International Product

Development, Sales and Pricing Committee, the Work-Out Committee, Money Laundering Prevention Committee, Group Investment Committee, ESG Committee, Risk Control Committee and the Group Impairment Committee operate on the principle of simple majority, while in the case of the Management Committee, the Executive Steering Committee, and the Product Development, Sales and Pricing Committee, decisions are made by a simple majority of votes but the chairperson has a right of veto.

1.6. Internal control system

The appropriate functioning of the internal control system is provided for, at bank-group level, in accordance with the relevant statutory regulations and in keeping with the relevant Recommendations.

The internal control system, alongside responsible corporate governance, is a cornerstone of the internal lines of defence that promote prudent, reliable and effective operation in accordance with the statutory regulations and internal regulations, protects the economic interests and social objectives of the customers and the owners and ensures continued trust in the Company.

It is a basic expectation concerning the operation of internal control functions that they should operate in a way to provide support to the senior management in making sound decisions.

Internal control functions

With regard to the lines of defence, the Bank uses the so-called “three lines of defence” model to manage risks and implement internal controls. The three lines of defence are (i) functions responsible for and managing risks (first line); (ii) functions exercising control over risks (second line) and (iii) functions providing independent, objective assurance (third line). The second and third lines of defence together constitute the internal control functions.

The first line of defence has principal responsibility for risks related to the operation of the organisation, so its appropriateness is primarily ensured by employees and operational managers. Accordingly, the business areas and other functions belonging to the first line of defence embed and operate appropriate first-level controls within their processes.

The functions of the second line of defence are independent risk management, compliance assurance and certain security internal controls.

The second line of defence monitors and supports the operation of the controls established by the first line of defence.

The purpose of the **independent risk management** function (Risk Management Division) is to prepare a Risk Strategy and to identify, measure, regulate and manage credit, market, operational and other risks, to ensure appropriate reporting, and to participate in risk management related decision-making. In the course of its activities, the risk management function continuously monitors the risk exposure of the Bank and the Banking Group and compares it with the Risk Strategy, risk appetite, risk management policies and limit system.

The purpose of operating a **compliance assurance function** is to identify and manage compliance risks². The compliance assurance function is performed by the Compliance Directorate. It carries out its activities in accordance with legal regulations and best industry practices, the main focus of which is the control and management of data protection, consumer protection, ethical, conflict of interest, prevention of money laundering, sanction, and capital market compliance risks.

As part of its function as a second line of defence, the **Security Directorate** manages the risks of financial crimes and cyber risk, as well as risks related to fraud prevention in the case of non-credit risks. The Bank has established its internal governance and control framework in line with prudent operation and the principle of proportionality.

In the area of ICT security the Bank has organised its ICT security operation based on the three lines of defence model adhering to the proportionality requirements set out in DORA and in Recommendation 1/2025 of the MNB.

Taking into account the principle of proportionality and assessing the Bank’s size, risk profile, services, and the nature and complexity of its operations, the Bank has also established an ICT and information security control function. This function performs both the ICT and information security compliance role and the risk control role, and cooperates with the other internal control functions and other relevant departments.

The responsibilities of the second line of defence for ICT and information security include ensuring regulatory compliance in ICT and information security (including ICT and information security regulatory documents), as well as defining standards and establishing ICT and information security frameworks.

² “Compliance risk” means any legal risk, supervisory or other official sanctions, significant financial loss, or reputational damage that may arise as a result of non-compliance with the legislation applicable to the financial institution, as well as other non-legislative acts and regulations and internal regulations.

Through these activities, it creates the operational environment, regulatory framework, and requirements for the first line of defence, and also performs its control activities and reports the results to the management body.

The Security Directorate measures and develops the operation of the required IT and cyber security controls. It conducts control effectiveness assessments and, in cooperation with the affected departments, makes proposals for changes to the existing operating model.

In order to fully carry out the security and ICT security functions and to enable the verification of applied practices, the Bank grants the Security Directorate appropriate authority and provides the necessary resources of its tasks.

The third line of defence is **the independent internal audit**, which, through its investigations, provides independent and objective assurance in order to achieve the goals and carry out the tasks of the Bank, effectively helps the lawful and effective management of assets and resources, and the protection of property. It identifies deviations from requirements and regulations, as well as risks and control deficiencies. By formulating actionable recommendations for management, it reduces the likelihood of risks materialising and subsequently monitors the implementation of the corrective measures. As part of its internal audit activities, the Internal Audit Directorate provides professional oversight of the internal audit functions of the group members included in the Single Internal Audit System, thereby ensuring group-wide operation in accordance with a single internal audit methodology.

The Risk Governance Function prepares bi-annual summary reports on the risk control activities carried out by the Risk Management Division and submits it to the Risk Assumption and Risk Management Committee as well as annual reports to the Board of Directors and the Supervisory Board.

The Compliance Board reports quarterly on the activities to the Executive Steering Committee, the Risk Assumption and Risk Management Committee, and the Board of Directors, as well as annually to the Supervisory Board.

The Security Directorate reports annually on its activities to the Management Committee, the Board of Directors, and the Supervisory Board.

The Internal Audit Directorate reports regularly on its activities to the Supervisory Board, the Audit Committee, the Board of Directors and the Executive Steering Committee and also presents submissions to the Risk Assumption and Risk Management Committee and Remuneration Committee.

The tasks performed by the internal control functions (second and third lines of defence) and the principles of cooperation and coordination between the Bank's central organisational units are detailed in the Organisational and Operational Regulations. The Bank also regulates the system of internal lines of defence in a separate policy.

The internal control functions are independent of the audited organisational units and of one another. Close cooperation and communication between the management of the first and second lines of defence and the third line of defence (internal audit) ensures that there are no duplications, overlaps or uncovered areas in terms of controls. The cooperation of internal control functions takes place in several forms: joint participation in the work of certain committees, multilateral or bilateral cooperation, and the Internal Controls Forum as a cooperation forum of internal control functions. The Internal Controls Forum is a consultative forum for knowledge sharing and information exchange by the control functions belonging to the second and third lines of defence, and it aims to enhance the operational efficiency of the internal control functions through synergies and thus supporting the continued prudent operation and long-term development of the Bank Group's activities.

Risk management

The basis for effective group-level risk management is the operating of a standardised, 'OTP-compliant' regulations and procedures at the group members concerned. The Company has detailed risk management regulations that include every type of risk (credit, country, counterparty, market, liquidity, operational, compliance) which are consistent with the statutory regulations pertaining to prudential banking operation. The annual report and the Information that is to be disclosed to the public under CRR describe the risk management practices, the limits, and compliance with these limits.

Within the Company, the Risk Management Division, the Security Directorate, and the Compliance Directorate exercise functional control over the guidelines, methodology and infrastructure of the bank-group risk management strategy, the purpose of which is to create a clearly defined, transparent, standardised credit, country, counterparty, market, liquidity, operational and compliance risk management system at group level which complies with the expectations of the Supervisory Authority and local conditions. The Bank Group pays special attention to the management of ESG risks and the implementation of climate protection aspects in business practice. The Bank Group's Risk Strategy, as well as the rules on risk prescribed by the Credit Institutions Act, are approved by the Bank's Board of Directors.

The Risk Strategy determines, with respect to the entire Bank Group, the framework for risk management and the principles, guidelines and focus programmes of risk assumption.

With respect to the cornerstones of the risk management methodologies, and the main risk topics for Bank Group members, the final decision-making competence is held by the Group members' management bodies and risk committees (in case of the Bank Risk Assumption and Risk Management Committee, Credit and Limit Committee, Risk control Committee, Workout Committee, , Asset-Liability Committee, - International Product Development, Sales and Pricing Committee, Group Operational Risk Committee, Group Impairment Committee, ESG Committee, Money Laundering Prevention Committee, etc.).

The Bank's risk management system encompasses the identification of the risks, assessment of their impact, elaboration of the necessary action plans, and the monitoring of their effectiveness and results. The management make their business decisions in a knowledge of all the key risks. All significant risks related to internal and external operations, or to compliance with financial and legal requirements, as well as numerous other risks, are evaluated and managed using a clearly defined and transparent internal mechanism.

The business continuity framework is intended to provide for the continuity of services. Developed on the basis of international methodologies, the lifecycle model includes process evaluation, action plan development for critical processes, the regular review and testing of these, as well as related DRP activities. The activity is overseen by the Group Operational Risk Management Committee.

Compliance

In accordance with EU regulations, Hungarian statutory provisions and supervisory recommendations, an independent organisational unit (the Compliance Directorate) operates at the Company, with the task of exploring and managing compliance risks. This function is supported by the appropriate regulatory documents: a compliance strategy, policy, regulations pertaining to the management of each compliance risk, as well as a work plan. The purpose of the compliance policy is to set out a summary of the Bank's key principles related to compliance, and to mark out the main strategy relating to independent compliance activities, which together facilitate and support the Bank's compliant, lawful, secure and prudent operation. The compliance policy is approved by the Board of Directors and the Supervisory Board of the Bank. The Bank's senior management is responsible for the implementation in practice of the compliance policy.

The Compliance Directorate prepares a report quarterly to the Executive Steering Committee, the Risk Assumption and Risk Management Committee, the Board of Directors, and the Supervisory Board, about the Bank's and the Bank Group's compliance activities and position.

Internal audit

OTP Bank Plc. has established and operates internal lines of defence that promote the prudent, reliable and efficient operation of the organisation in compliance with the law and internal regulations, the protection of the organisation's assets and the economic interests and social objectives of customers and owners, and, through these, the smooth and efficient operation of the organisation and the maintenance of confidence in the institution.

The scope of the internal audit system covers all entities, organisational units, processes, business lines and activities of the OTP Group, including outsourced activities.

The Company's internal audit system consists of several modular control levels. The elements of the internal audit system are comprised of in-process controls and management controls, and an independent internal audit and management information system.

As one of the internal lines of defence of priority importance, the internal audit function of the OTP Bank Plc. assists in the legally compliant and effective management of assets and liabilities and the protection of property; it supports secure business operation, the effective operation of internal control systems, the minimisation of risks, and it also detects and reports differences and deviations from the provisions of the statutory regulations and internal policies and their underlying causes, makes recommendations for the elimination and prevention of deficiencies and for strengthening controls, and monitors the implementation of the measures. It performs its activities objectively and as set out in the Global Internal Audit Norms. Its independence is ensured by the fact that it is professionally overseen by the Supervisory Board of OTP Bank Plc., within the framework set out by the Credit Institutions Act. The independent internal audit function was established to ensure the performance of owner audits throughout the OTP Group, in all its institutions and branch network, as well as the professional management and supervision of foreign and domestic group members' internal audit functions. The internal audit function performs tasks related to regular contacts and coordination with, and reporting to, external supervisory and control bodies.

OTP Bank Plc. has developed and operates a Unified Internal Audit System consistently throughout the bank group, proportionate to the size of the OTP Group and the market share of the Company. In addition to the audits covering the entire parent bank, the Unified Internal Audit System includes owner audits conducted at the foreign and domestic group members as well as the professional oversight of the internal audit functions of the financial institutions that are subject to consolidated supervision as specified in the Credit Institutions Act. As a means to this end, uniform internal control procedures and methodologies have been developed and applied, and their continuous development is being carried out in line with international best professional practices.

The annual activities of the internal audit function are performed based on the annual audit plan approved by the Supervisory Board. The annual plan is prepared using a risk-based and process-oriented approach, keeping in mind the coverage of the audit universe and the focus on the areas with major risk exposures, with a particular emphasis on the Company's strategic priorities. An annual internal audit plan is prepared at group level on an annual basis as well as reports on its implementation, the performance of the tasks stipulated in this plan, the audits conducted and other activities and the function's operating conditions, as well as on any changes to the internal audit system.

The independent internal audit has unrestricted access to the information, documents and data needed to carry out the audits and receives continuous information on any and all changes in the structure, risks and priorities of the group.

The independent internal audit makes group-level reports on its internal auditing activities and results for the management bodies at quarterly and annual intervals. In its quarterly reports it gives a summary account of the audits conducted by the Group's internal audit functions and the external audit units, the risks identified in the course of the audits, the success of any action taken to eliminate them, and any extraordinary events that have occurred in the Group. It prepares a separate presentation to the management bodies on the aggregate results of the investigations at the level of

the designated group. In exceptional events that require immediate intervention, the internal audit function provides the management with extraordinary briefings.

The independent internal audit reports annually to the Supervisory Board, the Board of Directors and the Risk Assumption and Risk Management Committee with the prior opinion of the Audit Committee, on the operation of risk management, internal control mechanisms and corporate governance functions. In addition, in line with the provisions of the Credit Institutions Act, reports, once a year, to the Supervisory Board and the Board of Directors on the regularity of internal audit tasks, professional requirements and the conduct of audits, and on the review of compliance with IT and other technical conditions needed for the audits. Furthermore, it reports annually to the Supervisory Board on the functioning of the Single Internal Audit System at the Parent Bank and the companies under its professional supervision, as well as on the planned developments of that system.

1.7. Auditor

The General Meeting has the authority to elect the company performing the audit, and to approve the nomination of the member responsible for the audit.

Our company was audited for the year 2025 by Ernst & Young Könyvvizsgáló Kft. (company registration number: 01-09-267553). Last year the auditor did not perform any activity that might have compromised its independence.

The Audit Committee makes a decision on any non-audit service provided to the auditor, and the related contract may only be concluded with the Committee's approval. The Audit Committee receives quarterly reports on the composition and the value of any non-auditor contracts, ensuring the independence of the auditor.

The Board of Directors must inform the Company's General Meeting and Supervisory Board if the auditor is given any other material mandates. In addition, if warranted, the Company's Board of Directors, Supervisory Board and other boards may use the services of an external consultant as well.

In the course of developing its accounting policy and accounting procedures, the Company establishes internal controls that reliability assure fulfilment of the Company's objectives in the interest of ensuring the reliability of financial reporting, the effectiveness and efficiency of the various corporate operations, consistency with the latest statutory provisions, and full compliance with the reporting requirements towards the individual regulatory bodies. The detailed tasks relating to the production or reports and to accounting audits are regulated in internal regulatory documents, the scope of which extends to all of the Bank's organisational units involved in the compilation of the financial statements.

An internal regulatory document provides instructions on the account-closing and reporting tasks related to the Company's interim (monthly, quarterly, half-yearly) and annual financial statements, and sets out in a consolidated format the account-closing operations, tasks and reporting actions to be performed monthly, quarterly, half-yearly and at the end of the year, specifying the deadline for completion of the tasks and the persons responsible.

Another regulatory document instructions on the inventory-taking and reconciliation of general ledger accounts serving the temporary recording of items that, at the time they arise, cannot for various reasons be stated immediately in actual asset or liability accounts, or in accounts that serve to record off-balance sheet items.

Pursuant to the provisions of the Accounting Act (IFRS), the financial statements must be supported with an inventory report. An internal regulatory document sets out in detail the tasks related to inventory-taking, in the interest of assuring the authenticity of the balance sheet through the accurate valuation of assets and liabilities, and ensuring the auditing of records, and through this a strengthening of documentary discipline, the protection of property, and the identification of any depreciated inventory stock and assets that are no longer in use.

In addition to the foregoing, the Company has elaborated and applies detailed accounting procedures, and continuously adapts the related accounting rules in relation to individual new products and activities. The individual internal accounting documents relating to accounting are

regularly (annually) reviewed and updated where necessary. The legal, internal auditing and compliance units also participate in the elaboration and amendment of the Bank's internal regulatory documents.

1.8. Disclosure of information

Providing regular and authentic information is essential if the shareholders, bond investors and the other participants in the capital market are to make sound decisions, and the way in which the Company discloses information also has an impact on its reputation.

The Company performs its disclosures in strict compliance with the provisions of Act V of 2013 on the Civil Code (hereinafter: Civil Code), the Capital Market Act, the Credit Institutions Act, Act CXXXVIII of 2007 on Investment Firms and Commodity Dealers, and the Regulations governing their Activities, Act C of 2000 on Accounting, Ministry of Finance Decree 24/2008 (VIII. 15), Act LXVII of 2019 on the encouragement of long-term shareholder engagement and modification of certain acts with the purpose of legal harmonisation, Regulation (EU) No 596/2014 of the European Parliament and of the Council (MAR), as well as the relevant Regulations of the BSE. In addition, the Company has effective internal regulations that ensure compliance with the obligation to disclose information.

The aforementioned regulations ensure that all material information pertaining to the Company and having a bearing on the price of the Company's shares is published accurately, in full, and in good time.

The Board of Directors describes its business and financial results of the given year at every ordinary General Meeting. The proposal to the General Meeting is published by the Company on the website of the Budapest Stock Exchange in accordance with its rules of disclosure and the provisions of the relevant regulations of the BSE.

The Company, in accordance with the statutory regulations, publishes on the Company's website and in its Annual Report the professional careers of the members of the Board of Directors, the Supervisory Board and the management.

The proposal pertaining to the remuneration of the chairman and members of the Board of Directors and the chairman and members of the Supervisory Board constitute a part of the proposals of the General Meeting.

The Company has detailed risk management regulations that include every type of risk (liquidity, market, country, counterparty, credit, operational, compliance) which are consistent with the statutory regulations pertaining to prudential banking operation. The Annual Report provides information about the Company's risk management practices, the relevant limits and compliance with the limits.

The Company has detailed internal regulations pertaining to insiders and potential insiders that fully comply with the restrictions and prohibitions regulated in detail by the MAR. In addition, the guidelines pertaining to securities trading by insiders are also available on the website. All transactions involving the Company's shares and other issued securities performed by the members of the Board of Directors and the Supervisory Board are published by the Company in accordance with the rules on disclosure, and the shareholdings in the Company of the officers of the Company (number of shares) are published in the Company's Annual Report.

The Board of Directors has assessed the effectiveness of information disclosure processes in 2025 and found them to be satisfactory.

1.9. Overview of the exercising of shareholders' rights

Participation in the General Meeting and voting rights

Shareholders may exercise their right of participation and their voting rights at the General Meeting, in person or by proxy.

The letters of proxy must be set forth in a notarised deed or a private document of full probative force. In the event that a shareholder is represented at the General Meeting by its legal representative (e.g. director, managing director, mayor etc.), the authenticated deed issued by the court or court of registration concerning the right of representation, or a certificate testifying to the election of the mayor, must be presented at the venue of the General Meeting.

The letters of proxy must be handed over at the location specified in the invitation to the General Meeting, within the allotted time. Unless otherwise regulated, the authorisation shall be valid for the continuation of a suspended General Meeting and for re-convened General Meetings by reason of the lack of quorum. If the letter of proxy was issued outside Hungary, it must satisfy, in terms of its form, the statutory provisions pertaining to the authentication or counter-authentication of documents issued outside Hungary. Information on the subject can be obtained from the Hungarian representation offices abroad.

A condition of participation and voting in the General Meeting is that

- the shareholding as at the time of the shareholder identification procedure is corroborated by the result of the shareholder identification procedure;
- the owner of the shares be validly recorded in the Company's Share Register by the time of its closure as per point 8.4. of the Company's Articles of Association (hereinafter: Articles of Association); and
- the shareholder's shareholding or voting right does not violate the statutory provisions or the provisions of the Articles of Association, which the Company ascertains through a check following receipt of the result of the shareholder identification process from KELER Central Depository Ltd. (hereinafter: KELER Zrt).

Voting at the General Meeting is performed using a computer, with a voting device. The shareholder or the shareholder's proxy, provided that he or she is attending lawfully in accordance with the provisions of the Articles of Association, may collect the voting device after certifying his or her identity and signing the attendance register at the venue of the General Meeting. If due to technical reasons voting is not possible with the voting device, the voting will take place with the help of voting books. Any given shareholder (including a shareholder represented by a shareholder's proxy) is only entitled to use a single voting device (book of voting slips).

The rules on participation in the General Meeting and the exercising of voting rights on the part of GDR holders are contained in the Custody Agreement concluded between The Bank of New York and the Company.

Further details are contained in the Articles of Association published on our website.

1.10. Brief description of the rules related to the conducting of the General Meeting

The Company requests a shareholder identification procedure for the date of the General Meeting (including any repeated General Meeting), as a corporate event, from the KELER Zrt. The shareholder identification procedure may take place only in the period between the 7th and 5th trading day at the stock exchange prior to the General Meeting (including any repeated General Meeting). The rules pertaining to the shareholder identification process are set out in the latest effective regulations of KELER Zrt.

The Company, at 18:00 Budapest time on the second working day before the General Meeting (or repeated General Meeting), deletes all the data in the Share Register and at the same time registers the results of the shareholder identification process in the Share Register, and closes it with the results of the shareholder identification. After this any entry related to the shareholder's holding may only be made, at the earliest, on the working day following the closure of the General Meeting or following the day of the non-quorate General Meeting.

The General Meeting must be announced in the manner specified in respect of announcements made by the Company, at least 30 days before the projected date of the General Meeting, unless otherwise stipulated in the Civil Code and the Credit Institutions Act. The (extraordinary) General Meeting, that is to decide on a capital increase necessary in order to avoid the proceeding referenced in Section 135 (2) of the Credit Institutions Act, can be announced at least 10 days before the projected date of the meeting.

The invitation must include the following:

- a) the Company's official name and registered office;
- b) the date and place of the General Meeting;
- c) the manner in which the General Meeting is to be held;
- d) the agenda of the General Meeting;
- e) the provisions contained in section 8.5 of the Articles of Association, with the reminder that shareholders may participate in and vote at the General Meeting only in compliance therewith;
- f) information about the place and date of the handing over of the letters of proxy;
- g) in the event that there is no quorum, the place and date of the reconvened General Meeting,
- h) the time of ownership verification process and closure of the Share Register,
- i) the fact that in order to exercise shareholder's rights in the General Meeting the shareholder must be listed in the Share Register at the time of its closure, but subsequent to this the shares may be freely traded without this affecting the ability to exercise shareholder's rights,
- j) the conditions, stipulated in the Articles of Association, for exercising the shareholder's right to request information,
- k) the conditions, stipulated in the Articles of Association, for exercising the shareholder's right to supplement the agenda of the General Meeting, and
- l) information regarding the time, place and means (including the address of the Company's website) of accessing the motions and proposed resolutions on the agenda of the General Meeting.

Questions not listed on the agenda may be discussed by the General Meeting only if all shareholders are present and they give their unequivocal consent thereto.

The General Meeting is regarded as having a quorum if the votes of the attending shareholders represent more than one-third of the total votes embodied by shares entitling the holder to vote.

If a duly convened General Meeting does not have a quorum, then the repeated General Meeting – convened for the time and date and venue specified in the announcement that is published in accordance with section 8.13 of the Articles of Association – shall have a quorum in respect of the agenda items set forth in the invitation irrespectively of the extent of the voting rights represented by those in attendance. The repeated General Meeting can be convened with the same start date as that of the General Meeting without a quorum. The repeated General Meeting shall be convened no later than twenty-one days after the day of the General Meeting without a quorum. If the agenda of the General Meeting includes a proposal relating to the withdrawal of the shares from any regulated market (hereinafter: delisting), then the repeated General Meeting shall have a quorum in respect of such agenda item if shareholders representing more than half of the votes embodied by the shares conferring voting rights are in attendance.

If a General Meeting that has a quorum cannot pass a resolution in respect of all the items on the agenda, it may decide to suspend the meeting and to convene a follow-up General Meeting, while

indicating the new time and place. The General Meeting may only be suspended once, and the follow-up General Meeting must be held within 30 days of the suspension.

In respect of the quorum of a suspended and then reconvened General Meeting (follow-up General Meeting), the general rules apply. The follow-up General Meeting may pass decisions only in respect of the announced agenda items of the original General Meeting in respect of which the original General Meeting did not make a decision.

The General Meeting is chaired by the Chairman of the Board of Directors or another person designated by the Board of Directors who

- opens the General Meeting;
- appoints the person responsible for taking minutes;
- determines whether the General Meeting has a quorum;
- gives and revokes the right to speak;
- formulates resolution proposals and puts them to the vote;
- announces the result of the vote on the basis of the results indicated by the vote counters;
- announces the intermission; and
- closes the General Meeting.

Prior to the opening of the General Meeting, shareholders who have voting devices may notify the Chairman of the General Meeting in writing if they would like to speak in relation to any of the agenda items. The comments made by the shareholders may not be on a topic that is different from the designated agenda item. The Chairman of the General Meeting must grant the right to speak to persons who have indicated their desire to speak in accordance with the above.

The Chairman of the General Meeting may determine the order in which the comments on the given agenda item will be heard, may grant any person the right to speak or may retract such right, with the proviso that the right to speak may be retracted from a shareholder who has indicated his/her wish to speak in writing only if the shareholder's comments depart from the given agenda item despite a warning in this regard. The Chairman of the General Meeting may prohibit the recording in the minutes of comments that are made after the right to speak is retracted, and may terminate the availability of the technical conditions (microphone) for making such comments.

The Chairman of the General Meeting may decide to hold the General Meeting in private, and, with the exception of the members of the Board of Directors, the managing directors specified in the Credit Institutions Act, the members of the Supervisory Board, the auditor, shareholders with voting terminals, and the representatives of such shareholders as well as the representatives of the MNB and the BSE, he may exclude anyone from attending the General Meeting.

The General Meeting passes its resolutions, unless the Articles of Association stipulate otherwise, through a simple majority of the votes of the attending shareholders.

Decisions at the General Meeting are made by open vote.

In its first resolution, the General Meeting selects, from the list proposed by the Chairman of the General Meeting, the attending shareholders who will act as the authenticator of the minutes and the vote counters. In the case of an unsuccessful vote the Chairman of the Meeting must submit a new proposal.

Minutes must be taken of the General Meeting, which must include the following:

- the Company's official name and registered seat;
- the date and place of the General Meeting and the manner in which it is held;
- data necessary for determining whether the General Meeting has a quorum and changes in the number of persons attending;
- the name of the Chairman of the General Meeting, the person taking the minutes, the authenticator of the minutes and the name of the vote counters;
- the most important events at the General Meeting and the proposals made;
- the draft resolutions, in the case of each resolution the number of shares with respect to which valid votes have been cast, the share represented by these votes in the share capital, the number of votes for and against the proposals and the number of those who abstained;
- objections to a resolution by any shareholder and any member of the Board of Directors or the Supervisory Board if the person objecting requests it himself;

The minutes are signed by the Chairman of the General Meeting and the person taking the minutes and are authenticated by an attending shareholder who has been selected for this purpose.

The Board of Directors must send the Company Court an authenticated copy of the minutes of the General Meeting within 30 days after the General Meeting is adjourned, together with the attendance register and the documents that certify that the General Meeting was properly convened.

Further details are contained in the Articles of Association published on our website.

1.11. Declaration on Remuneration

The purpose of this section is to provide the General Meeting of the Bank with information on Act LXVII of 2019 on the promotion of long-term shareholder participation and the amendment of certain laws for the purpose of legal harmonisation (hereinafter: "SRD II Act"). This law is the adaptation in Hungary of Directive (EU) 2017/828 of the European Parliament and of the Council of 17 May 2017 amending Directive 2007/36/EC as regards the encouragement of long-term shareholder engagement (SRD II).

Pursuant to Section 16 (1) of the SRD II Act, the Bank had established a remuneration policy for directors in accordance with the provisions of the Act, which was approved by the Bank's Board of Directors, acting under the authority of the Bank's General Meeting convened for 30 April 2020, through its Resolution No.92/2/2020, and then through the resolution No. 6/2/2024 of the General Meeting convened for 26 April 2024, passed by a vote of opinions (hereinafter: "Remuneration Policy").

Pursuant to Section 16 (1) of the SRD II Act, the Bank applies the Remuneration Policy to directors. The personal scope of the Remuneration Policy extends, in accordance with this provision, to the members of the Bank's Board of Directors, Supervisory Board and Audit Committee, as well as to the Chief Executive Officer and Deputy Chief Executive Officers of the Bank (hereinafter: "Directors").

According to the provisions of SRD II Act (Section 16 (2)), the remuneration policy shall contribute to the company's business strategy and long-term interests and sustainability, and shall explain how it does so. To facilitate all of the above, the Bank's Remuneration Policy and Practice includes the following:

- The managers' remuneration is based on value creation. It encourages high performance and appropriate risk-taking in line with the Bank's strategy, as well as a responsible behaviour serving the long-term interests of the Bank (e.g. developing incentives, through the creation of a performance measurement scheme and the use of financial and non-financial indicators, that aligns the managers' individual interests with the Bank's long-term interests).

- The share-based honorarium and performance-based remuneration ensure consistency between the individual interests of the executives and the long-term interests of shareholders and the company, by guaranteeing the long-term commitment of the beneficiaries of share-based honorarium and performance-based remuneration and their commitment to the Bank's sustainable and long-lasting success.
- The objective is to ensure that the Bank's senior management consists of executives with the appropriate skills and competences and with a good business reputation, who contribute to the implementation of the Company's long-term success and strategy (including, in particular, the application of selection criteria aligned with these values and of a competitive wage system adjusted to market conditions, qualifications and the complexity of the tasks, in an effort to attract and retain the appropriate executive staff).
- Provisions intended to ensure several years' deferral of performance-based remuneration and its subsequent risk adjustment also promote long-term value creation and sustainability, as well as ethical behaviour. These provisions examine eligibility for performance-based remuneration not only at the time that it is awarded, but also before each deferred instalment is paid (in every year of the deferral cycle), thereby ensuring that the performance measurement process is indeed based on long-term results and, where appropriate, any disbursed performance-based remuneration can be reclaimed.

Pursuant to Section 16 (3)-(4) of the SRD II Act, the remuneration policy must be clear and comprehensible, with the proviso that the company is not obliged to make public in the remuneration policy information the disclosure of which would seriously compromise its business interests or its rights to business secrecy. In our opinion, with an accurate, comprehensive and easy-to-understand description and clear wording of the rules, the Bank's Remuneration Policy complies with the aspects of clarity and comprehensibility.

Section 16 (5) of the SRD Act II stipulates that the company may pay the directors remuneration only on the basis of a remuneration policy submitted to the General Meeting for a vote of opinions, in accordance with the provisions of Section 3:268 (2) of the Civil Code.

The Bank ensures compliance with this provision by the Remuneration Policy having been approved by the Bank's Board of Directors, acting under the authority of the Bank's General Meeting convened for 30 April 2020, through Resolution No. 92/2/2020, and then through the resolution No. 6/2/2024 of the General Meeting convened for 26 April 2024, passed by a vote of opinions. In view of the fact that, pursuant to Section 29 (3) of the SRD II Act, the Remuneration Policy was to be adopted in 2020 and was required to be applied for the first time to the year 2021, only payments made after 1 January 2021 were relevant in terms of compliance, after which date no payments were made in non-compliance with the provisions of the Remuneration Policy.

The Remuneration Policy contains all the content elements listed in Section 17 (1)-(3) of the SRD II Act, as follows:

- The specification of the various fixed and variable components of the remuneration, including all forms of remuneration and other benefits that may be provided to directors, indicating their relative proportions, is comprehensively set out in Sections II and III of the Remuneration Policy.
- The description of how the remuneration and employment conditions of the company's employees were taken into account during the elaboration of the remuneration policy is contained in Section VIII of the Remuneration Policy.
- The duration of the contracts concluded with the directors for employment or performance of office and the related remuneration, the applicable notice periods, the main characteristics of supplementary pension or early retirement schemes, as well as the terms of the termination and payments linked to termination are contained in Section IV of the Remuneration Policy.

- The presentation of the decision-making process followed for the determination, review and implementation of the remuneration policy, including, measures to avoid or manage conflicts of interests, as well as the role of the remuneration committee or other committees concerned is contained in Section IX of the Remuneration Policy.
- In connection with share-based remuneration, the vesting periods, possibly the retention of shares after vesting, and an explanation of how share-based remuneration contributes to the company's business strategy, long-term interests and sustainability are set out in Chapter V of the Remuneration Policy.
- In respect of variable remuneration, the clear, comprehensive and varied criteria for the award of the variable remuneration and the applicable financial and non-financial performance criteria – including in particular criteria relating to corporate social responsibility – and an explanation of how they contribute to the Company's business strategy, long-term interests and sustainability, as well as the methods to be applied to determine to which extent the performance criteria have been fulfilled are contained in Section VI to the Remuneration Policy.

In connection with these criteria, it needs to be emphasised that the objectives defined in the Remuneration Policy must be sufficiently long-term and comprehensive to ensure that they remain standard and relevant in a continuously changing business environment even over several-year cycles, and that their public accessibility does not prejudice the Bank's legitimate business interests (in line with Section 16 (4) of SRD II Act).

The Bank uses a KPI library containing some 120 quantitative and qualitative objectives, and each of the objectives defined in this KPI library in respect of the Directors corresponds to a comprehensive criterion set out in Section VI of the Remuneration Policy. In each case, the specific objectives of a given Director are selected from the objectives contained in the KPI library, which, in the given business year, clearly define the business objectives relevant to the area of responsibility of the Director concerned. Nevertheless, the objectives set for the Directors always follow the two-tier objective structure set out in the Remuneration Policy (both institutional and individual objectives are to be defined). In accordance with the provisions set out in the Remuneration Policy, these objectives also include objectives related to corporate social responsibility.

- In connection with variable remuneration, information on any deferral periods and on the possibility for the company to reclaim variable remuneration is set out in Section VII of the Remuneration Policy.

Section 17 (4) of the SRD II Act stipulates that, in the event that the remuneration policy is revised, the revised policy must describe and explain all significant changes occurred since the most recent votes by the general meeting of shareholders, as well as a presentation of how it takes into account the votes and views of shareholders regarding the remuneration policy and the reports. The Remuneration Policy was first adopted in 2020 and, according to Section 3:268 (2) of the Civil Code, only needs to be put on the agenda of the General Meeting “in the event of a significant change thereof, but at least every four years”. Accordingly, in 2024, the Remuneration Policy was re-submitted to the General Meeting for a vote of opinions, despite the fact that there have been no significant changes to the Remuneration Policy since its adoption. Although the rules remain unchanged, in the submission of the Remuneration Policy in 2024, the Bank strived to make the rules clearer and easier to understand by including illustrations in the Remuneration Policy to aid interpretation. The circumstance that the Bank's Remuneration Policy has been unchanged for a long period of time can also be traced back to the cause that the remuneration of Directors is considerably limited by the sector-level regulations applicable to credit institutions, which in many respects also limits the Bank's possibilities in amending these rules. Following the initial adoption of the Remuneration Policy, the Bank received a number of shareholder comments that were attributed to an incorrect interpretation of the rules, resulting in the Bank's primary objective to improve the clarity of the rules. In addition, the Bank has received a number of shareholder comments on its

Remuneration Policy, which objected to the lack of information in the remuneration report under the SRD II Act; however, the Bank is not currently required to publish a remuneration report under the SRD II Act (it discloses remuneration information under Article 450 of Regulation 575/2013/EU. Accordingly, the Bank could not take these comments into account for the purposes of its Remuneration Policy, as such information are not part of the Remuneration Policy under the SRD II Law.

Pursuant to Section 17 (5) of the SRD II Act, departures from the remuneration policy are only accepted in exceptional cases, and temporarily. Since the application of the adopted Remuneration Policy started on 1 January 2021, there has been no departure from the prescribed rules, so compliance with the law can be established in this respect as well.

Section 18 of the SRD II Act stipulates that, after the vote on the remuneration policy at the general meeting, the remuneration policy together with the date and the results of the vote must be made public without delay on the website of the company, and that the remuneration policy must remain publicly available, free of charge, at least as long as it is applicable. The Bank complies with the above requirements, as the Remuneration Policy was published immediately after its approval – together with the decision adopting it – and it is still available free of charge (starting from page 60) at the following link:

https://www.otpbank.hu/static/portal/sw/file/240426_kozgyhat_119.pdf

Pursuant to Section 22 (2) of the SRD II Act, the provisions of the SRD II Act applicable to remuneration reporting shall apply to credit institutions and investment firms only if this is requested by Magyar Nemzeti Bank in its resolution. In the absence of such a decision, the Bank shall continue to fulfil its obligation to disclose information in compliance with Article 450 of Regulation (EU) No 575/2013 of the European Parliament and of the Council on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 ("CRR"). The Bank fulfilled the above obligation to disclose information in 2025 as well. The published remuneration information is available at the following link (pages 41-48 of the document):

1.12. Evaluation of the work of the Board of Directors, the Supervisory Board and the management

In accordance with the expectations of the supervisory authority, the execution capabilities of the Board of Directors, the Supervisory Board and the management were evaluated with respect to the affected managers, in the framework of the 2025 annual performance evaluation. The evaluation was performed along the following dimensions: business thinking, business and operational development, governance, relationship and resource management, integrity and personal drive. Based on the results of the evaluation, no issue has arisen that would necessitate action.

Within the group of managers concerned, during the evaluated period – based on the conflicts of interest policy, code of ethics, or human risk criteria – no conflict of interest or issue relating to the independence of the managers has arisen.

1.13. Description of the diversity policy applied with respect to the undertaking's administrative, management and supervisory bodies

The Bank defines and regulates the requirements relating to executive officers in compliance with the requirements and guidelines under European Union and domestic law that fundamentally determine the operation of credit institutions.

When nominating the members of its management bodies (Board of Directors, Supervisory Board) the Bank, and when appointing the members of the Management, the Board of Directors, gives priority to the possession of professional expertise, advanced interpersonal and management skills, varied academic qualifications, wide-ranging business experience and good standing, but they are also strongly committed to taking effective steps to ensure diversity in connection with the Company's operation, including efforts to steadily improve the rate of participation by women. Without prejudice to the above principles, the Bank also strives to ensure that both genders are

represented among the candidates during the selection process for members of management bodies. In 2021, the Bank's Nomination Committee adopted the Bank's Gender Equality Strategy, which is available at the link below:

https://www.otpbank.hu/static/portal/sw/file/Strategia_nemi_egyenloseg_megteremtese_20210707.pdf

The Bank's Nomination Committee constantly monitors the applicable European Union and domestic regulations, with the purpose of taking the necessary steps without delay should clearly expressed expectations be announced. The Bank's current strategy is to have at least one female member on both the Board of Directors and the Supervisory Board.

It should be borne in mind, however, that as a public limited company the election of members of the management bodies is the exclusive prerogative of the General Meeting, over which the Bank has no substantive influence beyond fully complying with the above criteria.

Pursuant to the Bank's Articles of Association, a Board of Directors with 5-11 members and a Supervisory Board with 5-9 members operate at the Bank. The present Board of Directors has 11 members, including one female member, while the Supervisory Board has 6 members, including two female members. The Bank's senior management currently consists of 7 persons, none of whom are women.

1.14. Legal background

The Bank Group complies with the prevailing corporate law and prudential legal provisions during its operation. OTP Bank Plc., which acts as the controlling credit institution, controls the members of the Bank Group with consideration to Hungarian law and the local law pertaining to each foreign subsidiary.

As a credit institution subject to consolidated supervision, OTP Bank is also responsible for ensuring prudent operation, and compliance with risk-taking and capital adequacy regulations for the entire group of enterprises under its controlling influence.

Pursuant to Section 3:112 (3) of the Civil Code, the Bank may give instructions to the executive officers of single-person companies owned 100% by the OTP, which the executive officer is obliged to comply with.

1.15. Group structure

The Bank Group includes OTP Bank, its Subsidiaries and all Companies operating in Hungary or abroad in which OTP Bank or its Subsidiaries have, directly or indirectly, Controlling Interest or Minority Interest.

1.16. Group governance

In the OTP Bank Group, "group governance" means a set of rules, responsibilities, processes, tools, activities, and organisational solutions that OTP Bank, as the Parent Company, uses for the long-term effective operation and control of the directly or indirectly owned Banking Group Member Companies. An efficient, transparent and prudent framework necessary to achieve the objectives of the OTP Bank Group. The purpose of group governance is to ensure the Bank Group's:

- a/ commercial success in accordance with its risk appetite;
- b/ responsiveness and flexibility;
- c/ homogeneous controls with the prudent management of systemic risks;
- d/ efficient use of resources, leveraging of synergies, sharing of professional experience and dissemination of best practices, taking into account the local characteristics of its member companies.

Features of the governance model

OTP Bank, as a top-level Bank Group Parent Company which is a credit institution, is responsible for ensuring prudent operation and compliance with risk-taking, liquidity and capital adequacy standards for the Banking Group Member Companies as a whole.

OTP Bank's mission is to operate a transparent, prudent, effective and efficient Bank Group based on uniform principles, in a model that also takes into account the particularities of each member of the banking group.

The model is based on following the transparent goals and principles of the Parent Company, on the controlled autonomy of Bank Group members operating in accordance with them, and on prudent operation compliant with EU, national and sectoral legislation and requirements.

In the governance model of the OTP Bank Group, a shift towards deeper integration can be observed, where the Parent Company provides strategic control and professional/functional guidance and cooperates with the members of the banking group.

Brief introduction of the Group Governance Matrix Model:

OTP Bank Group has been using the group governance matrix model for many years, which uniformly applies to the Hungarian and foreign members of the banking group, regardless of their activities, and also serves as a model for the Majority Parent Companies Directly Held by OTP Bank (e.g. Merkantil Group).

Elements of the Governance Matrix Model:

- a/ Ownership Governance,
- b/ Professional Field Governance, and
- c/ the organisational unit responsible for the proper functioning of the Group Governance Model at HQ: Group Governance Model and Program Management Unit.

OTP, as the Bank Group Parent Company, governs the banking group through professional cooperation and enforcement of the owner's interests.

Ownership governance means the direct enforcement of interests, the exercise of the rights of ownership of the parent company as enshrined in law. Ownership Governance serves the implementation of OTP Bank's expectations and decisions at the Bank Group Member Companies (in accordance with the applicable legislation and regulations of competent authorities).

The parent bank enforces its interests as owner at the general meeting and through the governing bodies and chairpersons of the subsidiary's governing body.

Specialised Area Governance is governance, knowledge sharing, operational support and control substantially separated from Ownership Governance – based on the outstanding professional knowledge accumulated by OTP Bank and the Bank Group –, which is typically realised through the communication of the position or opinion of the Parent Company.

The purpose of Specialised Area Governance is to share the tried-and-true methods and processes used by the Functional and Business Departments of OTP Bank, as the Bank Group's Parent Company, as well as other Banking Group Member Companies, with other Banking Group Member Companies. An additional goal is to put them into practice to ensure that the Bank Group Member Company demonstrates outstanding professional standards and to promote effectiveness at the banking group level.

It is the task and responsibility of the given specialist banking department of OTP to develop the tools, methods and processes that fall within the scope of Professional Field Governance, and to ensure that the Bank Group Member Companies operate in accordance with them.

1.17. Operating structure

Managers of the Bank's operation based on organisational hierarchy

The CEO controls and supervises the Bank's daily operation in order to ensure that it takes place within the framework of the law and the Bank's Articles of Association and in accordance with the decisions of the General Meeting and the Board of Directors.

The Chairman directs the work of the Bank's Board of Directors in accordance with the Articles of Association and the Board of Directors' Rules of Procedure, as well as conveys the shareholders' requests to the Bank's executive management.

The Bank's central organisation is divided into functional organisational units.

Under the direction of the CEO, each of the central specialised fields and functions, with due regard to their logical and professional connections, are managed by Deputy CEOs (Heads of Divisions) with the exception of areas under the direct management of the CEO.

Deputy CEOs are responsible for managing the specialised fields and/or special tasks entrusted to them. They ensure that the units under their direction contribute, in a manner and to the extent appropriate to their competence, to the effective operation of the Bank by fully completing the tasks under their responsibility.

1.18. Reporting lines

The reporting pathways of the Bank are well regulated and documented both within the Bank Group and concerning outsourced activities.

The Group Operational Risk Management Committee is responsible for the appropriate operation of the reporting pathways required by law and expected by the management.

1.19 ESG organisation

In November 2020, the Bank's Management Committee launched the Bank's ESG Programme, in which all ESG-related areas of the Bank actively participated. The Programme also had steering and operational committees. The ESG Steering Committee reported regularly to the Bank's governing bodies on the Programme's activities and achievements. In 2021 as per the 5/2021 (IV.15.) MNB Green Recommendation, a conceptual proposal was prepared for the establishment of the functional units that constitute the Bank's standing ESG organisation, the ESG Committee, the ESG Sub-Committee and the ESG control function, which was discussed and unanimously approved by both the Management Committee and the Board of Directors. By means of a Board decision, the Bank's ESG unit was established in December 2021. The unit has several levels: the main decision-maker is the Board of Directors. The ESG Committee assists in the work of, and reports to, the Board of Directors. The ESG Committee and the ESG Sub-Committee were included as standing committees in the Organisational and Operational Regulations, and the tasks, responsibilities and reporting obligations of the relevant organisational units and departments were defined. The ESG Committee is responsible for defining the ESG strategy, plans and policies of the Bank and the Bank Group. The ESG Committee gives its prior opinion on all ESG-related proposals to be submitted to the governing body. The ESG Sub-Committee is the standing decision-preparation forum of the ESG Committee, and performs coordinating, consulting and implementing duties in the context of its technical support work. The ESG Committee, together with the relevant departments, is responsible for identifying ESG risks, preparing strategies, plans and policies, setting objectives and performance targets, as well as evaluation, which means that in addition to defining and managing climate change-related and environmental risks and social and corporate governance risks, it is also responsible for evaluating their implications and thereby contributing to the fulfilment of the ESG tasks of the Board of Directors.
